

THE CENTRAL RECORD.

TWENTY NINTH YEAR

LANCASTER, KY., THURSDAY AFTERNOON, MAY 30, 1918.

NUMBER 9.

CONDITIONS ARE SUCH THAT
certain kind of farming implements are very hard to get. If you are interested and need anything in this line, give us your order now.

Conn Brothers.
LIVE AND LET LIVE FOLKS.

Only one registering place in this county June 5th, and that will be at the COURT HOUSE, Lancaster from 7 A. M. to 9 P. M.

The Ladies Aid Society of the Pleasant Grove church, gave a straw berry Supper last Thursday night, for the benefit of the Red Cross. The sum of \$100. was realized.

All men who have reached the age of 21 since June 5, last, must register at the Court House in Lancaster Ky., on next Wednesday, from 7 A. M. to 9 P. M.

BIDS WANTED

Bids will be received up to one o'clock next Saturday for building the annex to the Paint Lick Graded School.

GOOD COLORED BOY DIES

Elisha Robinson, a well known and trusted colored boy, died at the home of Mrs. Sallie Robinson, near Huddle, last Friday and was buried Saturday afternoon. He was taken suddenly with pneumonia and lived only a week after stricken. He had lived with Mrs. Robinson since his infancy and was an honest and trustworthy boy. He was about 29 years old.

Registration will be held at the Court House June 5th, for all young men who have reached 21 years of age since last June 5th. From 7 A. M. to 9 P. M.

PROFESSOR NOE.

Professor J. T. C. Noe, Head of the School of Education of the University of Kentucky, will deliver the address to the graduating class on Thursday, June 6th, at 8 o'clock, P. M.

KILLED

Taylor Simpson, a well known colored man, was fatally stabbed at Robertson, O., where he had been working since leaving here last fall and his remains were brought to Lancaster last night. Burial will take place today.

GRATEFUL TO HELPERS.

Mr. R. H. Ledford, chairman of the Paint Lick district in the recent Red Cross drive, asks us to thank his associate team workers for their splendid work, and whose noble efforts and whole hearted work, made possible Paint Lick's full quota.

NOTICE TO ALL MEN IN CLASS ONE.

All men now in class one must hold themselves in readiness for service. You may be called at any time. When called bring final card 1007 with you.

Local Board Garrard County, Lancaster, Ky.

LOST:—Diamond pin, initial 'N'. Lost during W. C. T. U. Convention. Reward for return to R. E. McRoberts.

DR. ADAMS.

Dr. M. B. Adams, President of Georgetown College, will preach the sermon to the graduating class of the Lancaster High School, on June 2nd, at 8 o'clock, P. M.

TEACHERS MEETING.

State Supervisor of Rural Schools, Hon. J. B. Chapman, will speak at the court house next Saturday afternoon. All the trustees and teachers in Garrard county are expected to attend this important and instructive meeting.

A NICE ENTERTAINMENT.

The people of the Marksburg section were very pleasantly entertained last Saturday evening by the closing exercises given by the pupils of Rice Academy School.

The program consisted mainly, of patriotic pieces with a few laughable farces. A small collection was taken at the door, which will be spent in improving the surroundings of the school house.

ANOTHER RECRUIT.

Mr. Wood Burnside has made formal application for Overseas work in the Army U. S. A., and his appointment has been recommended by the local committee. Mr. Burnside is both morally and physically fit for this service and his friends hope that he will have little difficulty in getting his appointment through.

DELEGATES TO CONVENTION

The State Federation of Women's Club will be held at Lexington on June 10th, 11th, and 12th, and at a recent meeting of the Women's Club of this city, the following delegates were named to attend the meeting: Mesdames John E. Stormes, Ed. C. Gaines, and William B. Burton. The alternates named, are Mrs. Clay Sutton and Mrs. Robert McRoberts.

DR. J. W. WEBER.

Patients of Dr. J. W. Weber, the Chiropodist, are loud in their praise of the good results from his treatment. Dr. Weber has practiced, he tells us, for many years in Kentucky, and during that time has treated some of the best families of the state. His advertisement appears on the first page of this issue and he has opened an office at the Simpson House on Richmond street, where he can be seen at any time.

HOW TO TELL A BAD EGG.

There will be an egg candling demonstration at the Lancaster Court house next Tuesday from ten A. M. to four P. M. Experts from the United States department of Agriculture and the Kentucky State Food and Drug Department, will show how to make an egg candler; how to candle eggs and how to prevent spoiling. Any person bringing eggs, not exceeding 30 dozen, may have them graded by the experts, free of charge. Come yourself and invite your neighbors.

SENIOR PLAY.

The Senior play, entitled, "Claims Allowed" will be given by the Senior class of the Lancaster High school to-morrow evening at the school auditorium. The program is printed on another page of this issue. The admission fee will be 25 cents, but those desiring reserved seats should apply at McRoberts drug store at once and fifty cents will be charged for these choice seats. The proceeds of the entertainment go to the Senior Red Cross and to the local Red Cross Chapter. Come see a good play and help a good cause.

LARGE TRUCK

Four Tons of Ice Go Through Iron Bridge

Yesterday afternoon about four o'clock, the large four ton truck belonging to the Danville Ice and Coal Company, and having on board four tons of ice consigned to Bastin Bros. of this city, broke through the Iron Bridge on the Danville pike, falling a distance of about twenty feet to the water below. The driver, whose name we did not learn, made a hasty exit over the engine when he realized the danger and escaped unhurt. The bridge gave away on the Boyle county side the rear end of the truck going down first and now lies, bottom side up, in about four feet of water. The truck was a new one and had only made a few trips. The sight is an unusual one and is drawing many from a distance to see it. It will be several days before the bridge can be repaired.

\$11,250.00

RED CROSS FUND LARGELY OVERSCRIBED.

GARRARD COUNTY PROUD OF ITS RECORD.

The people of Garrard County are feeling good today. Ten days ago when the Red Cross Campaign Committee asked:

"What are you going to do to help the Red Cross work along?" there were some doubters who said that the county could never raise the quota allotted which was \$7,000. They were wrong, however, as a total of nearly \$11,250.00 has been paid into the banks of Lancaster, every dollar of which will go to this great work of mercy; and every dollar of it will be needed and every dollar will be well and wisely and economically expended.

From the total amount raised some \$2800.00 will come back to the local Chapters, and in addition to this amount some \$250.00 more will come to the same chapters as their part of the \$3000.00.00 donated by the thoroughbred and fine horse interests of Kentucky to local Red Cross work. This money will provide funds ample to meet the needs of these Chapters for some time to come.

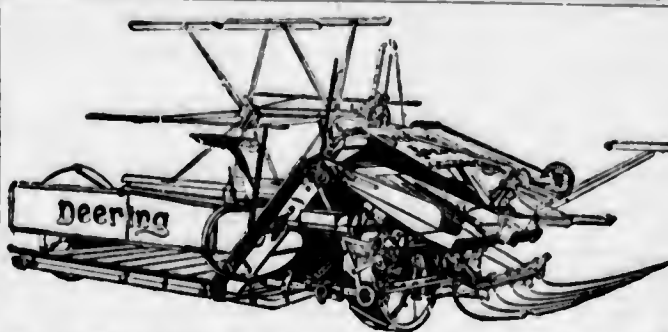

Too much cannot be said in praise of the generous contributions and the unstinted services given freely and gladly by the patriotic men and women, boys and girls of the county in this campaign. By working together we have exceeded our quota by over 60 per cent. We have not the space to give credit to all of those to whom credit is due. Suffice it to say that Paint Lick, Bryansville, Buckeye and Lancaster have all gone over the amount asked of them.

The leaders in these sections of the county have all covered themselves with glory and the grateful thanks of the American Red Cross Society is hereby tendered to them as well as to every man, woman or child who tried to do his or her full duty.

Because it is impossible to print in this issue all of the names of those who contributed in this campaign, the remainder of the Honor Roll will be found in the issue of June 6th.

Memorial Day May 30th

At first Memorial Day was a day of memories; the graves of the brave men who gave their lives in the Civil War were decorated with flowers; a sign that a grateful people had not forgotten the supreme sacrifice these men made.

Then the day gradually became a popular day; games, sports, picnics, were more important than heroic memories. The original idea of the day was in danger of being lost.

Now we have come to a time when Memorial day can be consecrated anew; when we may look back with reverence upon the victories past and forward with courage and determination to a victorious future.

Let us make the day a time when we renew our declarations of loyalty to the great cause of which our country has always been the foremost champion---

The Cause of Human Liberty and Rights of Men.

We shall do our daily work, whatever it may be, with a better spirit, if we keep that idea before us.

Let no man be a slacker in these trying times; whether it be in the store, on the farm or at the front; lift the camouflage and let our true patriotism march squarely and fairly to the front with Uncle Sam's Victorious Armies.

BLEUCHER 46158

This well bred and well known show horse will
make the season of 1918, at my barn at

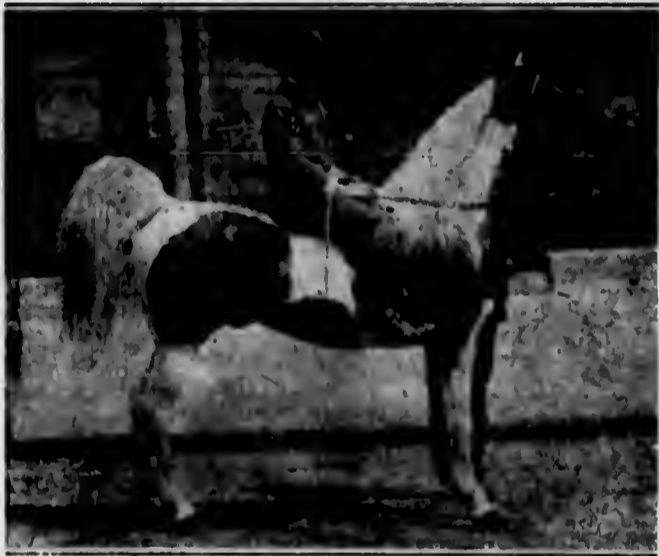

\$20. To Insure a Living Colt.

It is useless to mention his breeding so well known is he in this
community. There is no better bred horse living. His type and con-
formation, his winning of the

**Champion Road Class and the Champion Breeding
Class at the Kentucky State Fair**

Places him above any other harness horse in Kentucky. His colts are
fine and sell high when put on the market.

W. B. BURTON, Lancaster, Ky.

MAJOR

Fifty-four and a half inches high, five years
old, five gaited pony. Will make the season at
our place, one and a half miles from Danville on
the Lexington pike, at \$10 to insure. This pony
is pronounced by competent judges to be the
finest in his class.

John S. Baughman & Son
Danville, Ky. Phone 1301.

Rowland Peavine 6053.

Chestnut Stallion, Foaled May 14, 1912.
Sired by Rex Peavine No. 1796, by Rex McDonald No. 833, by Rex
Denmark 840
1st dam—Bourbonist No. 9297 (full sister to Bourbon's Best) by Bour-
bon Chief 976, by Harrison Chief 1606, by Clark Chief 89.
2nd dam—Judy Oliver 6407, by Red Cloud 2197, by Indian Chief 1718.
3rd dam—by Wilson's King 2197.
4th dam—Daughter of Sim's Clark Chief 2578.
Rowland Peavine is a rich chestnut, with star and snip; stands 15.3
full; weighs 1100 pounds; six years old. As you will see from the above
breeding, he has the blood of the best show horses Kentucky has ever pro-
duced, and is one himself. You should see this horse before booking your
mare. You rarely ever have the opportunity to breed to a horse as fash-
ionably bred at this small fee of

\$20.00 TO INSURE A LIVING COLT.

Will make the season of 1918 at my stable on East Main street.
Money due at birth of colt or when mare is parted with or bred to other
stock.

J. C. Bailey, Stanford, Ky.

PRINCIPAL ADVANTAGES IN SPRAYING IN SPRING FOR SAN JOSE SCALE PEST

THOROUGH APPLICATION OF DORMANT SPRAY.

(Prepared by the United States Depart-
ment of Agriculture)

The spraying of trees during winter
and spring, or when they are in a dor-
mant condition, is directed largely
against scale insects, especially the
San Jose scale. There are two prin-
cipal advantages in spraying at this
time: (1) The absence of foliage per-
mits of more thorough applications,
and (2) the sprays may be used much
stronger than during the growing
season. Contact sprays are employed,
as lime-sulphur solution, fish-oil and
other soap washes, kerosene and crude-
petroleum emulsions, miscible oils, and
the like. The prime essential is thor-
oughness in making applications, so as
to cover every part of the tree, because
in general only those insects actually
hit with the spray are killed.

Applications may be made in late
fall as soon as most of the leaves have
fallen, at favorable times during the
winter when the temperature is above
the freezing point, or, preferably, in
the spring shortly before the buds are
due to swell. There is probably less
danger to fruit buds and twigs from the
use of sprays in the spring than at other
times. Better results follow spray-
ing with lime-sulphur solution in late
spring than in late fall or during the
winter, since this insures some spray
on the trees during early summer,
which is of value in killing any young
scales, the offspring of adults, which
may have escaped destruction.

Important Orchard Work.

Spraying dormant trees for the San
Jose and other scales and for other in-
sect pests has come to be a very im-
portant part of orchard work, especial-
ly in the East and on the Pacific slope,
and in general it is possible so to time
this work that a single application will
reach most of the troubles controllable
by dormant-tree sprays. Other things
being equal, the insecticide having the
greatest range of usefulness should be
employed. Of the several dormant-
tree sprays, the standard lime-sulphur
solution is the one most generally used
against the San Jose scale, and it is
equally effective against several other
insects which may exist on the trees.
It is an excellent fungicide, and, aside
from the inconvenience experienced in
its preparation and its disagreeable
character, it furnishes an ideal spray
for dormant trees. Abundant experi-
ence has shown it to be an effective
remedy in the control of the San Jose
scale under all conditions, and for most
other diaspine scales, as the cherry
scale, the European fruit scale, and
reasonably so against the oyster-shell
scale, and the scurfy scale. Lecanum
scales, such as the terrapin scale and
the brown apricot scale, are more ef-
fectively controlled by mineral-oil
sprays. The thorough treatment
each year, therefore, with lime-
sulphur solution will keep well under
control the more important scale-in-
sect pests of the orchard.

There are certain other troubles con-
trolled by the dormant-tree sprays
with sulphur solution. It has been
found effective in destroying eggs of
the pear-tree psylla and has long been
known as effective against the pear-
leaf blister mite. The red spider and
eggs of the clover mite and other
mites are probably also destroyed. In
California, if applied in late spring, the
lime-sulphur solution has been found
effective in destroying the peach twig-
borer. Entomologists are not agreed
as to the benefit from lime-sulphur
spraying in the destruction of eggs of
apple aphids, and other plant lice, but
its value in this connection is perhaps
not important. In practice, therefore,
the plan should be to make one thor-
ough application of lime-sulphur solu-
tion to orchards each spring as a gen-
eral treatment for the control not only
of the San Jose scale but of many
other scale insects and other pests.

Homemade Concentrates.

Several years ago the cooked lime-
sulphur wash was used largely for the
control of the San Jose scale but has
now been generally superseded by the
commercial or homemade concentrates.
Since inquiry occasionally is received
as to its preparation, the formula and
method of making are given below:
Stone lime, pounds 30 or 2
Sulphur (commercial ground),
pounds 15 or 6
Water to make 50 or 6

Heat in a cooking barrel or vessel
about one-third of the total quantity
of water required. When the water
is hot, add all the lime and at once
add all the sulphur, which previously
should have been made into a thick
paste with water. After the lime has
slaked about another third of the
water, preferably hot, should be add-
ed and the cooking should be con-
tinued for one hour, when the final dilu-
tion may be made, using either hot or
cold water, as is most convenient. The
boiling due to the slaking of the lime
thoroughly mixes the ingredients at
the start, but subsequent stirring is
necessary if the wash is cooked by di-
rect heat in kettles. If cooked by
steam, no stirring will be necessary.
After the wash has been prepared it
must be well strained as it is being
run into the spray tank. It may be
cooked in large kettles, or preferably
by steam in barrels or tanks. This
wash should be applied promptly after
preparation, since, as made by this
formula, there is crystallization of the
sulphur compounds and consequent
hardening of the sediment upon cool-
ing.

Commercial Concentrates.

For a number of years manu-
facturers have had on the market con-
centrated solutions of lime-sulphur which
have only to be diluted with water for
use. These commercial preparations,
if used at proper strength, have proved
to be entirely satisfactory. Although
somewhat more expensive than washes
made according to the old formula,
many commercial orchardists have
adopted the commercial concentrates
in preference to making the wash at
home. Where only a limited amount
of spraying is to be done, as in the
average home orchard, it will be es-
pecially convenient to use the com-
mercial concentrates. Lime-sulphur con-
centrates usually may be purchased
from local seedsmen, implement de-
alers, or druggists, and from the manu-
facturers. They should have a density
of about 33 degrees on the Baumé scale
and at this strength should be used as
follows:

For dormant trees, 6 1/2 gallons to make
50 gallons of spray, or 5 pints to make 5
gallons of spray.
For leafy trees in foliage, 1 1/2 gallons
to make 50 gallons of spray, or 1 1/2 pints
to make 5 gallons of spray.

SPECIALIZED FARM IS RISKY

It Represents Possibility of Heavy
Losses on Account of Big Fluctu-
ations in Prices.

(From the United States Department of
Agriculture.)

While the highly specialized farm
represents the possibility of great
profit, it also represents the possibi-
lity of heavy losses on account of the
tremendous fluctuation in production,
and consequently in prices, of the
products of intensive farming. In the
greater portion of the country the
great mass of farmers must gain their
livelihood from the ordinary field crops
and common types of live stock.

TO OBTAIN IMPROVED TEAMS

Start With Heavy Draft Mares and
Raise Colts—Animals Will
Prove Satisfactory.

The best way to get better teams,
so better implements may be used, is
to start with heavy draft mares and
raise colts. The mares will do the
farm work and raise their colts. By
breeding the mares to desirable pure-
bred stallions, so that they will bring
colts at a time when work in the fields
is not so pressing, the mares will be
satisfactory as teams.

BRUSSELS SPROUTS IN FAVOR

Delicately Flavored Plants Have Much
Same Habits as Cabbage—Culti-
vation Is Same.

Brussels sprouts are miniature cab-
bages, but with a delicate flavor such
as no cabbage can boast. The plants
have much the same habits of growth
as cabbages and are cultivated in the
same way; but, instead of making a
single large head, they produce a large
number of globular buds or sprouts up
and down the stems.

If you do this

with KOR-KER PUNCTURE-CURE

(America's Standard Tire Treatment)
You can test our claims very quickly.
You'll know absolutely that you can
start on a long ride free from pun-
cture worry.
Further, Kor-Ker is a preservative of
rubber and will give your tubes
threefold life. We have analyzed
chemist's reports to this effect and
our own seven years' tests beside.
Inner tubes installed with Kor-Ker
four years ago are still in use.
There will be no slow leaks and scant
chances of blowouts.
If you want to assure yourself that
Kor-Ker seals punctures—

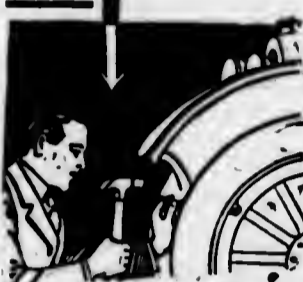

Installing Kor-Ker Puncture Cure

You can do this

Drive a nail into your tire. Pull it
out and with one revolution of your
wheel the puncture will be
permanently sealed.

Your tires will always
be at proper inflation—
no half left tires that crack
or break down quickly.

No matter how skeptical you can't
doubt after such a test, can you?

CRAB ORCHARD, ILL.

BLUE GRASS FARMS FOR SALE

No. 84. 205 ACRES, in Lincoln county, Ky., 3-4 mile off State pike, two good dwellings, subdivided into 12 fields, under the best of wire fences. This land lays well, two sets of improvements; nearly all in clover and timothy grass. Not one acre of waste land and is a bargain at \$125.00 per acre.

No. 83. 221 ACRES, on pike in Garrard county, right out in "society" under good fence, dandy 9 room dwelling, large tobacco and stock barns, never failing water. You could plow on this farm with a tractor till the sun makes you sick. Good reason for selling and terms to suit: If you have \$10,000 you can handle this large well improved farm. It's priced right.

No. 70. 245 ACRES, on pike, four miles from county seat, lime stone land, dandy 9 room dwelling, large stock and tobacco barns, one of the best improved farms. Land lays well and is ever-lasting water in abundance. This one at \$125.

No. 101. 190 ACRES, in Garrard county, four miles of hustling village, churches, bank, graded school. About 80 acres bottom land; 40 acres in sod; the entire farm lays gently rolling and level, plenty of water; good 8 room dwelling and large stock barn. This farm is just off turnpike on county road and for a limited time only is priced at a figure that you can speculate on and make good money.

No. 98. 145 ACRES, in Boyle county, 4 miles of Danville, smooth, lime-stone land, about 20 acres in sod, 40 acres in wheat and sown to clover, 20 acres hemp, balance corn and tobacco. Good 6 room dwelling and new 6 acre tobacco barn; all necessary out-buildings; has everlasting water supplied by Dix river and large pond. Beautiful location and right on pike. See this one before it is too late at \$135. per acre.

No. 85. 200 ACRES, 2 1-2 miles of Lancaster, on pike, old 6 room dwelling, two good barns, tenant houses. This is sand stone land, nearly all in grass and is a money maker and priced to sell.

No. 95. 104 ACRES, sand stone land, 1 mile of main turnpike, close to graded school, churches, bank, and is well improved; has dandy 6 room dwelling, new 4 room dwelling, two large new tobacco barns. Young man here's your chance, (land adjoining this and fronting the turnpike sells for \$175 per acre). We will make terms to suit and set this one in to you at \$110 if you will act now.

90. 44 ACRES, rolling lime and sandstone land, 2 miles of Lancaster, on pike, small house and barn, good land, plenty of water and under good fence. This is good land and think of it! \$125 per acre.

No. 102. 170 ACRES, just off pike. Close to schools and churches, land lays well, nearly all in grass. Dandy improvements, \$100. per acre.

We can also show you some very attractive dwellings and city lots; also some business properties netting the owners 7 per cent. If it's real REAL ESTATE and you want to Go Over the Top, we have it and will put you there.

WEEDS DETRIMENTAL TO BIG CROP YIELD

May Be Due to Roots Giving Off Poisonous Substances.

Fact That Noxious Plants Do Harm in Many Ways Is Reason Why Farmer Should Make Efforts to Subdue These Invaders.

(Prepared by the United States Department of Agriculture.)

The full reason why weeds reduce yields is not definitely known. It is well recognized that weeds deprive crops of moisture, plant food, and sunlight, and by these means cause decreased yields. Experiments have shown, however, that even where there is a supply of moisture and plant food sufficient for the needs of both the weeds and the crop, weeds still exert a detrimental effect. This may be due in part to the weed roots giving off substances which are poisonous to crops. A more generally accepted explanation, however, is that the roots

Well-Cultivated Cornfield, Free of Weeds—Food, Not Waste, Produced on This Land.

of the weeds interfere with the root development of the cultivated plants. This is thought by many to be the principal factor involved, and undoubtedly it plays an important part. The fact that weeds do harm in more ways than has been supposed is all the more reason why the farmer should make strenuous efforts to subdue these invaders. Land that should produce 60 bushels of corn may yield no more than 20 bushels if weeds are not kept down by adequate cultivation, and the net profit to the farmer is relatively much less for the resulting poor crop than these figures on yield show.

Another loss results from the presence of weed seeds in crop seeds. This necessitates much labor in separating or results in dockage by dealers if the separation is not made. Wheat containing wild-onion bulblets is sometimes docked as much as 50 per cent, and in some cases there is no sale at all for such wheat. The agricultural experiment station of Minnesota estimates that in that state alone the damage to wheat due to weed seeds amounts to two and a half million dollars yearly.

There are other causes of damage resulting from weeds, which in some cases are important. The harvesting and curing of crops are sometimes made difficult by the presence of weeds. Russian thistle, bindweed, and Canada thistle usually are a source of great annoyance at harvest time to the growers of small grains. Again, some weeds harbor fungi and insects which attack nearby crops; the clubroot of cabbage is fostered on the wild-mustard tribe of weeds, and the Colorado potato beetle lives also on nightshade and henbane. Furthermore, some weeds are poisonous or otherwise injurious to man, live stock, or live stock products. Poison ivy, sumac, Jimson weed, and the seeds of corn cockle are poisonous to man; wild onion and bitter-weed spoil dairy products; cowbane, water parsnip and loco weed are poisonous to stock; and the barbed seeds of squirreltail grass and prostrate grass penetrate the noses and mouths of live stock, causing painful sores.

It is difficult to estimate the damage of weeds, but it is probable that they cost the American farmer several hundred million dollars every year.

FOOD FOR A QUEEN

(Prepared by the United States Department of Agriculture.)

"The King was in his counting house, counting out his money. The Queen was in her parlor, eating bread and honey."

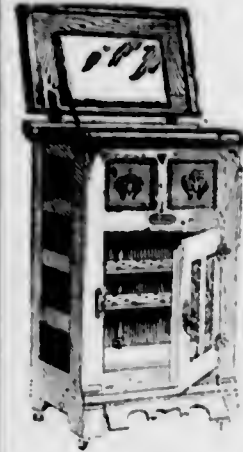

So goes the Mother Goose rhyme, which shows that honey has long been regarded as food for kings and queens.

Yet the humblest American family can have this choice food if they keep bees in their backyard or on their farm. Bees require little attention—most anyone can master the simple rules essential to successful beekeeping. Try it, but remember that unless bees receive the care they need they will not yield a crop.

Allies of the Kaiser. The Kaiser has an ally in every sheep-killing cur in America.

NOW IS THE TIME TO BUY YOUR

Refrigerator

WE HAVE JUST RECEIVED A CARLOAD OF NEW ICEBERGS—THE BEST REFRIGERATOR MADE. THE NEW ICEBERG WILL PLEASE YOU IN APPEARANCE, QUALITY AND PRICE.

The New Iceberg, as shown here, is guaranteed to give satisfaction. By actual test it preserves food better and requires at least 1-3 less ice than any other refrigerator built.

We are showing them this season in the White Enamel, Porcelain and Zinc lines; in all sizes ranging in price from \$10.00 on up to \$50.00.

Seen in a Different Light.

There stood an old peddler resting on the bridge situated near Avonon at the meeting of the waters. He was tired and weary after a hard day's walking, and as he looked down into the waters he murmured: "Sweet Avon of Avon, Tom Moore called you sweet but if he had to be on a bed without a blanket or sheet and travel the country without boots on his feet, he wouldn't give a curse where the fright waters meet."

CHANDLER SIX \$1595

Unusual Economy Without Sacrifice

THE Chandler Six has always been famous for its economy of operation—economy without the sacrifice of reserve power, without the sacrifice of roadability, without the sacrifice of beauty of design.

Thousands of Chandler owners all over America tell of gasoline mileage of fifteen to seventeen miles per gallon.

Tire mileage of seven thousand to nine thousand miles per set of tires is commonplace among Chandler owners.

Chandler owners and Chandler dealers say that the service upkeep of the Chandler car is much less than that of other good cars which they have owned or sold.

In the ownership of a Chandler Six you will possess a really great automobile—great not merely from the standpoint of economy of operation and maintenance, but, even more important, from the standpoint of mechanical excellence and daily performance.

The Chandler motor, designed and built in our own factory, distinguishes the Chandler chassis, marked throughout by its simplicity and its sturdiness. The life, pick-up, get-away and endurance of this motor will astonish you quite as much as it pleases you.

Bodies of most attractive design and of unusual comfort are mounted on the Chandler chassis.

SYNOPSIS.

CHAPTER I—Fired by the news of the sinking of the Lusitania by a German submarine, Arthur Guy Empey, an American, leaves his office in Jersey City and goes to England where he enlists in the British army.

CHAPTER II—After a period of training, Empey volunteers for immediate service and soon finds himself in front billets "somewhere in France," where he first makes the acquaintance of the ever-present "coodle."

CHAPTER III—Empey attends his first church service at the front while a German Puker circles over the congregation.

CHAPTER IV—Empey's command goes into the front-line trenches and is under fire for the first time.

CHAPTER V—Empey learns to adapt the motto of the British Tommy, "If you are going to get it, you'll get it, so never worry."

CHAPTER VI—Back in rest billets, Empey gets his first experience as a nose orderly.

CHAPTER VII—Empey learns how the British soldiers are fed.

CHAPTER VIII—Back in the front-line trench, Empey sees his first friend of the trenches, "Go West."

CHAPTER IX—Empey makes his first visit to a dugout in "Suicide Ditch."

CHAPTER X—Empey learns what constitutes a "day's work" in the front-line trench.

CHAPTER XI—Empey goes "over the top" for the first time in a charge on the German trenches and is wounded by a bayonet.

CHAPTER XII—Empey joins the "coodle club" as the bombing squad is called.

CHAPTER XIII—Each Tommy gets an official bath.

CHAPTER XIV—Empey helps dig an advanced trench under German fire.

CHAPTER XV—On "listening post" in No Man's Land.

CHAPTER XVI—Two artillerymen "put one over" on Old Pepper, their regimental commander.

CHAPTER XVII—Empey has narrow escape while on patrol duty in No Man's Land.

CHAPTER XVIII—Back in rest billets Empey writes and sings a farce comedy.

CHAPTER XIX—Soldiers have many ways to amuse themselves while "on their own."

CHAPTER XX—Empey volunteers for machine gun service and goes back into the front-line trenches.

CHAPTER XXI—Empey again goes "over the top" in a charge which cost his company 17 killed and 21 wounded.

CHAPTER XXII—Trick with a machine gun silences one bothersome Fritz.

CHAPTER XXIII—German attack, preceded by gas wave, is repulsed.

CHAPTER XXIV—Empey is forced to take part in an execution as a member of the firing squad.

CHAPTER XXV—British prepares for the Big Push—the battle of the Somme.

CHAPTER XXVI—In a trench raid, preceding the Big Push, Empey is severely wounded and lies unconscious in No Man's Land for 24 hours.

CHAPTER XXVII—After four months in a British hospital, Empey is discharged as "physically unfit for further war service."

"Well, some wives threaten and others nag."—Louisville Courier-Journal.

BUCKEYE

Mr. Chester Schouler visited his sister, Mrs. Jasper Noel, last week.

Phone Walton Moss for a crate of Strawberries.

Mr. and Mrs. Dewey Price and little son, visited Mr. Bob Price last week.

Mr. and Mrs. Hubert Carter were guests Sunday of Mr. and Mrs. A. C. Miles.

Mr. and Mrs. Wilson Hurt visited Mr. Harrison Ray and family recently.

Mr. and Mrs. William Hirstey and son, visited Mr. and Mrs. Robert Long, last week.

Mr. and Mrs. Walker Bradshaw and children, visited her parents, Mr. and Mrs. T. O. Hill, Sunday.

Mrs. Handy Kurtz and children were guests last Tuesday of her parents, Mr. and Mrs. L. E. Brown.

Mr. and Mrs. Charlie Cotton and children, and Mrs. Brondius were guests last week of Mr. and Mrs. W. A. Cotton.

Mr. and Mrs. Will Whittaker and daughter, Mr. and Mrs. Lottie Hince and daughter, spent Sunday, with Mr. and Mrs. Robert Long.

Mrs. Bernice Hoyle, Mr. and Mrs. T. W. Bradshaw, Mr. A. D. Bradshaw, Mr. W. E. Whittaker, Mr. W. H. Guley and family were guests Sunday of Mr. and Mrs. R. W. Sanders.

Mrs. Susan Taylor died May 25, and was buried last Sunday morning. Mrs. Taylor was 60 years old. She had been sick for some time. She leaves one daughter, Mrs. Nell Brown.

Mr. James D. Baker of near Napa was buried last Sunday morning. Mr. Baker had been ill only a short time. He leaves to survive his wife, his wife and three children, Mr. Eddie Baker, Mrs. Freston Snyder, and Mrs. Cronley Rose all of this county.

Misses Lucy Newigan of Glasgow, Maude Jesse of Richmond Va., and Inez Ray, of Richmond, N. H., Messrs Clayton Samples of Shelbyville, Chas. Ferrill of Perryville, were entertained from Saturday until Monday by Miss Rosa Ray at her home.

flag-draped stretcher, carried by four soldiers. I was one of the four. He handed the stretcher, in column of fours, came the remainder of the section.

To get to the cemetery, we had to pass through the little shell-shattered village, where troops were hurrying to and fro.

As the funeral procession passed these troops came to the "attention" and smartly saluted the dead.

Poor Pete was receiving the only salute a private is entitled to "somewhere in France."

Now and again a shell from the German lines would go whistling over the village to burst in our artillery lines in the rear.

When we reached the cemetery we halted in front of an open grave, and held the stretcher beside it. Forming a hollow square around the opening of the grave, the chaplain read the burial service.

German machine-gun bullets were "cracking" in the air above us, but Pete didn't mind, and neither did we.

When the body was lowered into the grave the flag having been removed we clicked our heels together and came to the salute.

I left before the grave was filled in. I could not bear to see the dirt thrown on the blanket-covered face of my comrade. On the western front there are no collars, and you are lucky to get a blanket to protect you from the wet and the worms. Several of the section stayed and decorated the grave with white stones.

That night, in the light of a lonely candle in the machine gunner's dugout of the front-line trench I wrote two letters. One to Pete's mother, the

Taking Provisions to the Front.

other to his sweetheart. While doing this I cursed the Prussian war god with all my heart, and I think that St. Peter noted same.

The machine gunners in the dugout were laughing and joking. To them Pete was unknown. Pretty soon, in the warmth of their merriment, my blues disappeared. They soon forgets on the western front.

CHAPTER IX.

Suicide Annex.

I was in my first dugout and looked around curiously. Over the door of some was a little sign reading "Suicide Annex." One of the boys told me that this particular front trench was called "Suicide Ditch." Later on I learned that machine gunners and bombers are known as the "Suicide Club."

That dugout was muddy. The men slept in mud, washed in mud, ate mud, and dreamed mud. I had never before realized that so much discomfort and misery could be contained in those three little letters, M U D. The floor of the dugout was an inch deep in water. Outside it was raining cats and dogs, and thin rivulets were trickling down the steps. From the air shaft immediately above me came a drip, drip, drip. Suicide Annex was a hole eight feet wide, ten feet long and six feet high. It was about twenty feet below the fire trench; at least there were twenty steps leading down to it. These steps were cut into the earth, but at that time were muddy and slippery. A man had to be very careful or else he would "shoot the clutes."

The air was foul, and you could cut the smoke from Tommy's fags with a knife. It was cold. The walls and roof were supported with heavy spurs of timbers, while the entrance was strengthened with sandbags. Nails had been driven into these timbers, and each nail hung a miscellaneous assortment of equipment. The lighting arrangements were superb—one candle in a reflector made from an ammunition tin. My teeth were chattering from the cold, and the drip from the airshaft did not help matters much. While I was sitting bemoaning my fate and wishing for the bedside at home, the fellow next to me, who was writing a letter, looked up and innocently asked, "Say, Yank, how do you spell 'condemnation'?"

I looked at him in contempt and answered that I did not know.

From the darkness in one of the corners came a thin, piping voice singing one of the popular trench ditties entitled: "Pack up your Troubles in your Old Kit Bag, and Smile, Smile, Smile." Every now and then the singer

would stop to cough, cough, cough, but it was a good illustration of Tommy's cheerfulness under such conditions.

A machine-gun officer entered the dugout and gave me a hard look. I sneaked past him, sliding and slipping, and reached my section of the front-line trench, where I was greeted by the sergeant, who asked me, "Where are you from?"

I made no answer, but sat on the muddy fire step, shivering with the cold and with the rain beating in my face. About half an hour later I turned up with another fellow and went on guard with my head sticking over the top. At ten o'clock I was relieved and resumed my sitting position on the fire step. The rain suddenly stopped and we all breathed a sigh of relief. We prayed for the morning and the rain issue.

CHAPTER X.

"The Day's Work."

I was fast learning that there is a regular routine about the work of the trenches, although it is badly upset at times by the Germans.

The real work in the fire trench commences at sundown. Tommy is like a lurcher, he works at night.

Just as it begins to get dark the word "stand to" is passed from traverse to traverse, and the men get busy. The first relief, consisting of two men to a traverse, mount the fire step, one man looking over the top, while the other sits at his feet, ready to carry messages or to inform the platoon officer of any report made by the sentry as to his observations in No Man's Land. The sentry is not allowed to

Lewis Gun in Action.

tumbled off the step, fell into the mud at the bottom of the trench, and lay still in a humbled heap with a bullet hole in his forehead.

About the time he expected to arrive at Waterloo station he was laid to rest in a little cemetery behind the lines. He had gone to Blighty.

In the trenches one can never tell—it is not safe to plan very far ahead.

After "stand down" the men sit on the fire step or repair to their respective dugouts and wait for the "rain issue" to materialize. Immediately following the rain comes breakfast, brought up from the rear. Sleeping is then in order unless some special work turns up.

Around 12:30 dinner shows up. When this is eaten the men try to amuse themselves until "ten" appears at about four o'clock, then "stand to" and they carry on as before.

While in rest billets Tommy gets up about six in the morning, washes up, answers roll call, is inspected by his platoon officer, and has breakfast. At 8:45 he parades (drills) with his company or goes on fatigue according to the orders which have been read out by the orderly sergeant the night previous.

Between 11:30 and noon he is dismissed, has his dinner and is "on his own" for the remainder of the day, unless he has clicked for a digging or working party, and so it goes on from day to day, always "looping the loop" and looking forward to peace and Blighty.

Sometimes, while engaged in a "coodle" hunt, you think, Strange to say, but it is a fact, while Tommy is searching his shirt serious thoughts come to him. Many a time, when performing this operation, I have tried to figure out the outcome of the war and what will happen to me.

My thoughts generally ran in this channel:

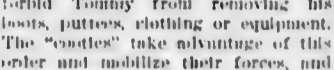

Will I emerge safely from the next attack? If I do will I skin through the following one, and so on? While your mind is wandering into the future it is likely to be rudely brought to earth by a Tommy interrupting with, "What's good for rheumatism?"

Then you have something else to think of. Will you come out of this war crippled and tied into knots with rheumatism, caused by the wet and mud of trenches and dugouts? You give it up as a bad job and generally saunter over to the nearest estaminet to drown your moody forebodings in a glass of sickening French beer or to try your luck at the always present game of "house." You can hear the singing voice of a Tommy droning out the numbers as he extracts the little squares of cardboard from the box between his feet.

CHAPTER XII.

Bombing.

The boys in the section welcomed me back, but there were many strange faces. Several of our men had gone West in that charge, and were lying "somewhere in France" with a little wooden cross at their heads. We were

Throwing Hand Grenades.

CHAPTER XI.

Over the Top.

On my second trip to the trenches our officer was making his rounds of inspection, and we received the cheerful news that at four in the morning we were to go over the top and make the German front-line trench. My heart turned to lead. Then the officer carried on with his instructions. To the best of my memory I recall them as follows: "At eleven a firing party will go out in front and cut lanes through our barbed wire for the passage of troops in the morning. At two o'clock our artillery will open up with an intense bombardment, which will last until four. Upon the lifting of the barrage the first of the three waves will go over." Then he left. Some of the Tommies, first getting permission from the sergeant, went into the machine gunners' dugout and wrote letters

noon when orders came up from the rear that he had been granted seven days' leave for Blighty, and would be relieved at five o'clock to proceed to England.

He was felled to death at these welcome tidings and regarded his more or less envious mates beside him on the fire step with the good times in store for him. He figured it out that in two days' time he would arrive at Waterloo station, London, and then—seven days' bliss!

At about five minutes to five he started to fidget with his rifle, and then suddenly springing up on the fire step with a muttered, "I'll send over a couple of souvenirs to Fritz so that he'll miss me when I leave," he stuck his rifle over the top and fired two shots when "crack" went a bullet and he

dirt would rise into the air and a ricochet bullet would whine on its way. If a Tommy should see one of these little spurts in front of him, he would tell the nurse about it later. The crossing of No Man's Land remains a blank to me.

Men on my right and left would stumble and fall. Some would try to get up, while others remained huddled and motionless. Then smashed-up barbed wire came into view and seemed carried on a tide to the rear. Suddenly, in front of me loomed a hunched trench about four feet wide. Queer-looking forms like mud turtles were scrambling up its wall. One of these forms seemed to slip and then rolled to the bottom of the trench. I leaped across this intervening space.

The man to my left seemed to pause in midair, then pitched head down into the German trench. I leaped out toward my delirium. Upon sighting on the other side of the trench I came to with a sudden jolt. Right in front of me loomed a giant form with a rifle which looked about ten feet long, on the end of which seemed seven bayonets. These flashed in the air in front of me. Then through my mind flashed the admonition of our layonet instructor back in Blighty. He had said, "Whenever you get in a charge and run your layonet up to the hilt into a German the Fritz will fall." Perhaps your rifle will be wreathed from your grasp. Do not waste time, if the layonet is failed in his equipment, by putting your foot on his stomach and tugging at the trigger to extricate the layonet. Simply press the trigger and the bullet will free it." In my present situation this was the logic, but for the life of me I could not remember how he had told me to get my layonet into the German. To me this was the paramount issue. I closed my eyes and lunged forward. My rifle was torn from my hands. I must have gotten the German because he had disappeared. About twenty feet to my left foot was a huge Prussian nearly six feet four inches in height, a fine specimen of physical unimpaired. The bayonet from his rifle was missing, but he clutched the barrel in both hands and was swinging the butt around his head. I could almost hear the swish of the butt passing through the air. Three little Tommies were engaged with him. They looked like penguins alongside of the Prussian. The Tommy on the left was gradually circling to the rear of his opponent. It was a funny sight to see them duck the swinging butt and try to jab him at the same time. The Tommy nearest me received the butt of the German's rifle in a smashing blow below the right temple. It smashed his head like an eggshell. He pitched forward on his side and a convulsive shudder ran through his body. Meanwhile the other Tommy had gained the rear of the Prussian. Suddenly about four inches of bayonet protruded from the throat of the Prussian soldier, who staggered forward and fell. I will never forget the look of blank astonishment that came over his face.

Lewis Gun in Action.

Then something hit me in the left shoulder and my left side went numb. It felt as if a hot poker was being driven through me. I felt no pain—just a sort of nervous shock. A bayonet had pierced me from the rear. I fell backward on the ground, but was not unconscious, because I could see dim objects moving around me. Then a flash of light in front of my eyes and unconsciousness. Something had hit me on the head. I have never found out what it was.

I dreamed I was being tossed about in an open boat on a heaving sea and opened my eyes. The moon was shining. I was on a stretcher being carried down one of our communication trenches. At the advanced first-aid post my wounds were dressed, and then I was put into an ambulance and sent to one of the base hospitals. The wounds in my shoulder and head were not serious and in six weeks I had rejoined my company for service in the front line.

While in rest billets Tommy gets up about six in the morning, washes up, answers roll call, is inspected by his platoon officer, and has breakfast. At 8:45 he parades (drills) with his company or goes on fatigue according to the orders which have been read out by the orderly sergeant the night previous.

Between 11:30 and noon he is dismissed, has his dinner and is "on his own" for the remainder of the day, unless he has clicked for a digging or working party, and so it goes on from day to day, always "looping the loop" and looking forward to peace and Blighty.

Sometimes, while engaged in a "coodle" hunt, you think, Strange to say, but it is a fact, while Tommy is searching his shirt serious thoughts come to him. Many a time, when performing this operation, I have tried to figure out the outcome of the war and what will happen to me.

My thoughts generally ran in this channel:

Lewis Gun in Action.

Then something hit me in the left shoulder and my left side went numb. It felt as if a hot poker was being driven through me. I felt no pain—just a sort of nervous shock. A bayonet had pierced me from the rear. I fell backward on the ground, but was not unconscious, because I could see dim objects moving around me. Then a flash of light in front of my eyes and unconsciousness. Something had hit me on the head. I have never found out what it was.

I dreamed I was being tossed about in an open boat on a heaving sea and opened my eyes. The moon was shining. I was on a stretcher being carried down one of our communication trenches. At the advanced first-aid post my wounds were dressed, and then I was put into an ambulance and sent to one of the base hospitals. The wounds in my shoulder and head were not serious and in six weeks I had rejoined my company for service in the front line.

While in rest billets Tommy gets up about six in the morning, washes up, answers roll call, is inspected by his platoon officer, and has breakfast. At 8:45 he parades (drills) with his company or goes on fatigue according to the orders which have been read out by the orderly sergeant the night previous.

Between 11:30 and noon he is dismissed, has his dinner and is "on his own" for the remainder of the day, unless he has clicked for a digging or working party, and so it goes on from day to day, always "looping the loop" and looking forward to peace and Blighty.

Sometimes, while engaged in a "coodle" hunt, you think, Strange to say, but it is a fact, while Tommy is searching his shirt serious thoughts come to him. Many a time, when performing this operation, I have tried to figure out the outcome of the war and what will happen to me.

My thoughts generally ran in this channel:

Will I emerge safely from the next attack? If I do will I skin through the following one, and so on? While your mind is wandering into the future it is likely to be rudely brought to earth by a Tommy interrupting with, "What's good for rheumatism?"

Then you have something else to think of. Will you come out of this war crippled and tied into knots with rheumatism, caused by the wet and mud of trenches and dugouts? You give it up as a bad job and generally saunter over to the nearest estaminet to drown your moody forebodings in a glass of sickening French beer or to try your luck at the always present game of "house." You can hear the singing voice of a Tommy droning out the numbers as he extracts the little squares of cardboard from the box between his feet.

CHAPTER XII.

Bombing.

The boys in the section welcomed me back, but there were many strange faces. Several of our men had gone West in that charge, and were lying "somewhere in France" with a little wooden cross at their heads. We were

Throwing Hand Grenades.

CHAPTER XI.

Over the Top.

On my second trip to the trenches our officer was making his rounds of inspection, and we received the cheerful news that at four in the morning we were to go over the top and make the German front-line trench. My heart turned to lead. Then the officer carried on with his instructions. To the best of my memory I recall them as follows: "At eleven a firing party will go out in front and cut lanes through our barbed wire for the passage of troops in the morning. At two o'clock our artillery will open up with an intense bombardment, which will last until four. Upon the lifting of the barrage the first of the three waves will go over." Then he left. Some of the Tommies, first getting permission from the sergeant, went into the machine gunners' dugout and wrote letters

Does YOUR Back Ache?

NEARLY everybody suffers from kidney disease at some time or other. One may think he is perfectly well and even force himself to say he is "all right," but his tired movements and languid expression tell more plainly than words that he is in an unhealthful condition.

Backache is a symptom of weak disordered kidneys. Rheumatic pains, stiff joints, sore muscles are others. These symptoms indicate that the kidneys and bladder need help to do the work of filtering and casting off from the system poisons and waste products that cause trouble.

Foley Kidney Pills

Give quick and permanent relief in kidney or bladder troubles that have not reached a chronic or advanced stage. They stop bladder irregularities, strengthen the kidneys and tone up the liver.

Paul Darrow, Stewart, Minn., writes: "Two years ago I had a pain in my back so severe that I could not walk. I thought it was kidney trouble. I bought a 50-cent bottle of Foley Kidney Pills and after taking about half the bottle was completely cured. I have had no recurrence of the trouble."

If you have any cause to suspect that your kidneys need help, you will make no mistake in taking Foley Kidney Pills. In 50c and \$1.00 bottles.

STORMS DRUG STORE.

MARKSBURY

Ryle Isom sold 30 shoats for \$70.

Green Estes sold a cow and calf for \$90.

Mr. and Mrs. Tom Chesnut of Fayette county, are visiting her parents, Mr. and Mrs. Mark Bogie.

Mr. and Mrs. Ryle Isom, motored to Harrodsburg, Sunday, and were guests of Mr. and Mrs. John Mursee.

Phone Walton Moss for a crate of Strawberries.

Mrs. Jesse Sanders had her car injured when another car ran into it, while she was backing out of the garage.

Mr. and Mrs. R. C. Clark entertained several friends at a "chicken fry" Sunday. Mrs. Clark always gets ahead of her neighbors somehow—they wonder how she does it?

Mrs. Ella Cecil, and Miss Annie T. Cecil, of Danville, are visiting her mother, Mrs. Fanny Pollard. Miss Cecil was the guest for several days last week of Mrs. Morten Pollard.

Mr. and Mrs. Mason Pollard were hosts at a splendid dinner Sunday. Mr. Jack Bourne and son, Mr. Cleveland Bourne, of West Lancaster, Mrs. Ella Cecil and Miss Annie T. Cecil, of Danville, were the guests from a distance.

Thru difficulties many and trials sore, the inside repairs of the church are completed with the exception of a few minor touches. The new metal ceiling, the newly papered walls and carpet stand as a monument to the best efforts of the committee, Messrs Ed Sutton and Dick Burton, Miss Sue Sutton, Mrs. Jas. Turner, Miss Eugenia Pollard and Mrs. J. W. Mahan, Miss Sutton acting as chairman of ladies. The church members and some who are not members responded most nobly to the call of the committee in these "strenuous" times.

It Helps!

There can be no doubt as to the merit of Cardui, the woman's tonic, in the treatment of many troubles peculiar to women. The thousands of women who have been helped by Cardui in the past 40 years, is conclusive proof that it is a good medicine for women who suffer. It should help you, too.

Take CARDUI

The Woman's Tonic

Mrs. N. E. Varner, of Hixson, Tenn., writes: "I was passing through the ... My back and sides were terrible, and my suffering indescribable. I can't tell just how and where I hurt, about all over. I think ... I began Cardui, and my pains grew less and less, until I was cured. I am remarkably strong for a woman 64 years of age. I do all my housework. Try Cardui, today. E-76"

The hour has long since struck when there can be but two classes of people in this country—Americans and pro-Germans. There can be no such thing as neutrality. Every citizen is either for or against his country. The Government is calling on every man, woman and child within our borders to declare themselves, and the call can no more be evaded than could the call to the ranks. Uncle Sam has no intention of unduly oppressing any person. Nevertheless there is a war to fight and win, a cause to be battled for to a triumph, and in this every person's services are called for and must be given to the extent of that one's ability.

The hour has struck when we must separate the sheep from the goats—the citizens from the parasites and leeches. Ten million of our people are already enrolled, but this is only about one-twentieth of our number. These ten millions are enrolled in the arms-bearing division. But there is an arms-furnishing department to be manned and financed, as well as all the other sinews of war, and to this task the other ninety million are called.

We some time ago arrived at the certain knowledge that the world is at war for a principle, and every human being in this country MUST either accept or reject that principle. Once and for all we must determine whether or not man shall be a free agent or the puppet of a petty tyrant. Once and for all we must determine whether a people shall choose their own allegiance or be subject to the call of royal butchers who would feed them to the Moloch of war purely to further their own lust for power.

And in the determination of this mighty question every person of ordinary intelligence among us will be recorded on one side or the other. As we have said, there is no middle ground—YOU, reader, are either American or anti-American. This is YOUR home, and its safety is menaced. YOUR services are demanded, and you can no more evade the call than you can evade the issues of life and death.

We repeat, we must separate the sheep from the goats. Every community should label its entire citizenship—loyal or disloyal, as the case may be. Slackers, traitors and pro-Germans should be placed in a class by themselves. Loyal Americans should have no dealings with these people. They should be made to feel the heavy displeasure of their loyal neighbors, be their station or standing what it may.

And in this melting and remoulding process, race or nationality should have absolutely no weight whatever. The loyal American of German blood or nativity should be as

warmly welcomed into the ranks of the country's defenders as the purest-blooded American among us. On the other hand, the slacker or pro-German should be so aligned, it matters not if his ancestors came over in the Mayflower or if his fathers fought the British at Bunker's Hill.

The mighty engine of public opinion works slowly. But this engine is warring up for the race, and our advice to the man or woman of un-American proclivities would be to sing very lowly.

One day in each twelve months we are accustomed to devote to the memory of those who, by their sacrifice and devotion, made possible for us the comforts and blessings we now enjoy. If grateful thoughts of these martyred heroes were not often in our hearts, this one day's devotion out of the twelve-month would be a mockery, considering the magnitude of our debt to them. But with ever-recurring thought of their great service present in our hearts, this day becomes but the flowering of a beautiful devotion and an ennobling love.

There is little of tribute that has not already been said of these noble dead, and we can on this occasion but echo the words of writers and orators who have preceded us in this mission. But America has, across the deep waters, on the battle fronts where the roar and crash of war never ceases, other thousands of brave souls who have gone forth to protect and preserve that which these our departed heroes so dearly bought for us—liberty. Their breasts are today bared to as savage a foe as ever brave hearts faced and conquered. They are there with the iron resolution to fight to victory or death. They stand between their loved ones and a fate too horrible to contemplate.

While we strew flowers above the ashes of our dead heroes, what shall be the tribute that we send across the waters to these our noble defenders? Shall it not be the firm faith of a united nation, that in the power of God and the Right they will win, and that in the land they have left one hundred millions of their people will continually pray and sacrifice without ceasing, that their arms may be strong and their hearts brave for the glorious task before them?

Thus may it be!

Intelligence.

An intelligent person is supposed to be one of cultivated understanding; a person who has acquired a large store of knowledge, but not necessarily in the schools or colleges, for many highly intelligent persons have been self-educated men and women. Intelligence is a characteristic of the mind rather than of action or manners. There are highly intelligent people who are socially impossible because of self-conceit or boorish manners.

Thinks Mermaid Was Manatee.

The Journal of Heredity rises to remark that the first mermaid in all probability was not pure invention. In all probability the mermaid story started when some ignorant seafaring man saw nothing less than a manatee slopping himself through the distant waves. At some distance, the seafarer, perched on his masthead, observed the creature, and, not looking unlike a human being, the shape of its head and facial formation when indistinctly seen taking on the appearance of life closely akin to mankind.

Teach Children Thrift.

Thrift is a very important element in character. Those who learn to be economical in youth have no difficulties when they are responsible for the income necessary to maintain a home. It is the man or woman that allows want to dominate and lives beyond the income that has difficulties when the income is small. Children should be taught economy and thrift early in life. They should be given a chance to earn and a chance to use their earnings. This will give them responsibility and teach them the worth of money.

KHAKI COLUMN

Friends here have received information of the safe arrival of Lieut. Carl Acton, in France.

Mr. John Gill Kinnaird, who is stationed at Indianapolis, came home Saturday night for a few hours visit to his parents, Dr. and Mrs. J. B. Kinnaird.

A message came Saturday morning to Mrs. Dorn Miller, that her son, Mr. Elmer Miller, who had been stationed at Camp Lee, Va., had arrived safely in France.

Miss Lena Bright of this city is very proud of her young nephew, William B. Bright, of Bellevue, Ky., who enlisted in the Navy last December and is now in France. His grand-father, William H. Bright was a veteran of the Mexican war and left this young grandson his gun which he called, "old Betsy" and which he carried through the Mexican war. This young patriot would like to carry "old Betsy" to the French front with him, but found it impossible in this branch of the service.

A letter from their son, Stanley, now on duty with the American Troops in France, has just been received by his parents, Mr. and Mrs. Luther Herron, and they have kindly consented for us to publish same, although it was censored in many places. Mr. and Mrs. Herron now have four boys in the service. We quote Stanley's letter and where the censor has cut it we indicate in letter "censored".

"On Duty With the American Troops, France, May 4th, 1918. Dear Mother and Dad:—

To start with, I wish to thank you for sending me the Central Record each week. I certainly enjoy every issue, and also enjoy your letters as well as Stella's Riker's and Catherine's. Tell them I think of them every day and also of Shelby.

Well we are in some sector now, (censored). Certainly is some place, nothing but artillery firing all the time. Today was bright and clear and airplanes were flying thick, snapping photos and fighting some.

We think the First Division will get something good pretty soon, as we have done almost everything that has been done here. Mother, I have a very good time with it all, under the circumstances. This is a terrible war, men being slaughtered (censored) when they find one of the enemy, they should take him out and kill him, right there.

I am under good officers and hope I will be lucky enough to be with them until I get home. I hear that most of the boys at home are getting married. I wonder what for. Do they love their country or are they afraid to face the struggle? The girls should do the work while we are away, at least that is the way the French girls are doing here, but ours can't do that it seems. I am so glad that I am in it and also glad to have three brothers that are fighting for our country's cause.

I will write as often as I can so keep sending the paper.

With lots of love to all,
Stanley."

That our good friend Holbert Easton is pleased with his work at Great Lakes and that his many friends here may know just how he is located, we publish a letter received from him a few days ago.

"Great Lakes Training Camp, Company 183-O, Co., Great Lakes, Michs.

My Dear Mr. Elkins:—

I thought I would drop you a letter to let you know that I hadn't entirely forgotten the dear people at Lancaster. Believe me, this is the greatest place I ever saw. Most every one here is from the Western states and some awful nice fellows. Since I have been here I haven't heard a single person say that he was not perfectly satisfied with everything. The eats are fine, well cooked, good variety and always have plenty. The grounds are well kept and we have the best of everything. I feel fine and what I can now see, one can't keep from liking it. Tell the boys in Lancaster, that the Navy needs men and if they want plenty of fun and excitement to come to Great Lakes. Enlist at Louisville 412 West Main Street, and I will assure them they have made no mistake. Entirely different from what I thought it was.

We have already attended two band concerts and believe me, they sure have good music. Here in the Great Lakes is almost like our Camp and quite cold at night. With kindest regards to all, I am
Yours truly,
Holbert Easton.

Smart Styleful Springtime Blouses

At Prices Surprisingly Small.

It is most unusual in these days to get REAL GOOD-LOOKING DISTINCTIVE blouses to sell at modest prices.

And still just because we delight in doing the unusual—have we Blouses of just this kind at prices that are astonishingly small.

Why even at a dollar—which ordinarily now buys so much less than it use to—can we sell a Pretty, Pleasing, well-made Waist.

At two dollars of course there are more charming Blouses, but the point we want to emphasize is, that you do not have to spend a lot of money to have a lot of pretty waists—that is, if you come here to satisfy your every Blouse requirement.

We are sole distributors for this city of the Nationally favored Welworth and Wirthmair Waists

Winsome New Welworth Models on Sale Now.

As always they are priced at \$2.00

Boulevard.
The war's last end means "end-work" or "finalization," and thus has direct reference to the old ramparts. But since the middle of the nineteenth century the title has been applied to new thoroughfares not traced on the site of an old one.

Kind, Not Critical.
Think as well as you can of every one who is trying in these hard times to do his duty—to be brave, cheerful and useful. Let us not be among those "who wet their tongue like a sword and bend their bows to shoot their arrows, even bitter words." Kindness helps, where criticism cannot—Exchange.

COOPER

Hon. G. B. Cooper for many years county clerk of Lincoln county and one of the most popular citizens in this section of the state, died at his home in Stanford last Saturday morning, after an illness of several months. The burial taking place in the Buffalo cemetery Sunday afternoon.

So efficient and popular was Mr. Cooper that he has held the office of county clerk for a number of years, without any opposition.

He is survived by a large family who are prominently connected in Lincoln and adjoining counties. He had a host of friends in Garrard who are grieved that he is no more.

Gossip About People

A Brief Mention of the Comings and
Goings by Those We Are Interested In.

Miss Mary Dowsley spent Saturday
in Winchester.

Miss Florence Acton was a visitor
at Georgetown College, last week.

Mr. Miller Lackey of Richmond,
was a visitor in Lancaster, Monday.

Mr. and Mrs. Charlie Lee spent
Friday with Mr. and Mrs. H. D. Lee.

Misses Ella Montgomery and
Cora Bryant spent Sunday with Mrs.
H. D. Lee.

Miss Blanche Phillips of Danville
was a visitor in Lancaster Saturday
afternoon.

Mr. and Mrs. Ed Naylor of near
Lancaster, are parents of a son born
May 25th.

Mr. Sam Taylor, of Coy, is spend-
ing several days with Mr. and Mrs.
John Hicks.

Miss Elizabeth Estes of Waco, is
the attractive guest of relatives in
our midst.

Miss Annie Austin, has returned
to Louisville, after a pleasant visit
to homefolks.

Miss Lillie Mae Sutton spent the
week end in Stanford, the guest of
Miss Nancy Hume.

Miss Katie Barnes Dickerson was
the charming week-end guest of Miss
Bettie Perry, in Richmond.

Mrs. J. W. Mershen of Somerset,
was the guest last week of her sister-
in-law, Mrs. John Walter.

Rev. Baird and wife were the
guests Sunday, of Mr. and Mrs.
Sybles, on Haselden Heights.

Mr. and Mrs. George Brown spent
Sunday with Mrs. Brown's sister,
Mrs. Moley Walker, of Buckeye.

Miss Effie Brown spent the week-
end with her cousins, Misses Marie
and Hazel Walker, at Buckeye.

Mr. Joseph Jung, Jr., of Covington,
has been the guest of Miss
Carrie Miller, for several days.

Dr. and Mrs. J. H. Kinnaird and
Miss Angie Kinnaird, were in Stan-
ford Sunday, for the funeral of Mr.
Cooper.

Miss Mamie Stormes Dunn, who
has been attending school at Lexing-
ton, came home Sunday, and is very
ill with measles.

Miss Lucy D. Jones and children,
and Mrs. Belle Barnard, of Monticello,
are the guests of Mr. and Mrs.
J. G. Hunsade.

Mrs. Nann Askins and baby, of
Lexington, are spending a few days
with her parents, Mr. and Mrs. M. A.
Cottrell, in East Garrard.

Miss Ruth Broadbush, Messrs.
Hazel and Emmet Broadbush and Al-
len Johnson, motored to Wilmore,
Sunday, and spent the day.

Mr. and Mrs. Coy Sanders, and
family, and Mr. and Mrs. John Hicks
and family were the guests of Mr.
and Mrs. Cleo J. Rhy, Sunday.

Miss Tommie Francis has returned
home after spending sometime
in Richmond, with her sister, Mrs.
George Bailey.

Mrs. E. K. Abbridge, of Kansas
City, Mo., is the guest of Miss
Flossie Tribble.

Miss Christine Moss of Crab De-
chard is the attractive little guest of
Mrs. J. M. Acton.

Mrs. Ed C. Gaines has been at
sick for the past week at her home
on Maple avenue.

Rev. and Mrs. J. W. Clere and
children, of Wilmore, were guests
of Mrs. J. M. Acton, Saturday.

Mr. and Mrs. Jake Graw and in-
teresting children, of Louisville, are at
the Kengarlin for a few weeks.

Mr. and Mrs. Shelby Tribble, of
Mt. Sterling, have been the guests
of his brother, Mr. John Tribble.

Mrs. Alex. Francis, and bright lit-
tle daughters, of Mississippi, are the
guests of friends and relatives here.

Dr. and Mrs. M. S. Hatfield, and
two interesting children, motored to
Somerset this week and were the
guests of Dr. and Mrs. C. B. Hall.

Miss Ruth Broadbush of Richmond
Normal School, and brother, Mr.
Emmet Broadbush, of Chicago, were
guests of Mr. Cronley Broadbush, and
family, Saturday.

Mrs. Herbert Lee and children,
Mrs. Lawrence Pollard and baby,
have returned to their home in
Louisville, after spending two weeks
with Mr. and Mrs. H. D. Lee.

Mr. Gale Doty had a pleasant visit
to Danville last week, the guest of
his "Uncle Fleece" Robinson, who
together with Mrs. Robinson have
just returned from Mecon, Ga.

Misses Charles and Eugene,
interesting children of Mr. and Mrs.
Charles Wimmer, of Lexington, are
visiting their grandparents, Mr. and
Mrs. E. Zimmer, at the Kengarlin.

Mr. and Mrs. Ewing Sealtz and
Mr. and Mrs. Fred Neighbors of
Louisville, were guests during the
past week, of their parents, Mr. and
Mrs. J. B. Bourne, on the Stanford
road.

Mrs. Clarence Withers of Lexing-
ton, Mr. and Mrs. Mack Worthing-
ton, Mrs. Bettie Miller and daugh-
ter, and Miss Annie Mulkey, of Per-
ryville, were the guests of Mrs. Dora
Miller, Sunday.

Mrs. J. A. Amon had as her pleas-
ant guest for one day this week,
Mrs. B. C. Crawford, of Chicago.
Reminiscences of school days were
talked of freely and a delightful
day together spent.

Mrs. Florence Grant, accompanied
by Bowman and Francis Grant, and
Miss Helen Young, leave Saturday,
June 1st, for Annapolis, Md., to be
present at the graduation of her son,
Midshipman Lucien M. Grant.

Miss Georgia Dunn will come next
week from the College of the Bible,
at Lexington, to spend a short vaca-
tion with home folks and friends be-
fore going to the mountains to spend
the summer in a resort port.

Mrs. Alexander Murphy and little
son, Alexander, Jr., after a pleasant
visit at the home of her grandpar-
ents, Mr. and Mrs. Wm. G. Anderson
leave Thursday for Louisville to
join Mr. Murphy for a few days be-
fore leaving for Panama.

Mr. Willie Mae Elliott who has
been attending Transylvania Univer-
sity, arrived home yesterday, and
will spend the holidays with his par-
ents, Dr. and Mrs. W. M. Elliott. He
was accompanied home by Mr. E. K.

Milton, who will be his guest for sev-
eral days.

Capt. George W. Pace and son,
George W. Jr., of Norfolk, Va., have
been pleasant guests since last Fri-
day of Mr. and Mrs. Fred P. Frisbie,
on Maple Avenue. These delightful
boys were visitors in our town two
years ago and made many friends
here, who will always give them a
kind hand and hope that their visits
in the future may be more frequent.
They leave for their home tomorrow.

Recent issues of the Cincinnati
Times Star and Post, contained
splendid pictures of Miss Dora
Scott, of Paint Lick, Ky. Miss Dora
is the daughter of Mr. James A.
Scott, of upper Garrard and has
been attending school in Cincinnati
for several years. The following
from the Times Star will be of in-
terest to Miss Scott's friends thout
the county:

"There being no such organization
as the girls' working reserve, it be-
came necessary for O. A. Mathins,
director of the Boys' Reserve, to
grant a special dispensation to
Gladys Courtney and Dora Dean
Scott, Walnut Hills High School, to
be farmerettes. Both have decided
to go on farms for the rest of the
school year and for vacation. They
will be given credit for work done
and will be subject to visits of in-
spection, just as are the boys of the
Working Reserve. Gladys is to go
to the farm of her mother at Mont-
gomery, Ohio, where she will specia-
lize in canning and the women's
part of farm life. Dora will go back
to her father's home at Paint Lick,
Ky. When Dora started to school
the life of a girl on the farm was not
regarded as at all interesting, farm-
erettes had not been heard of and
girl gardeners were practically un-
known. But the war has changed
many things, even at Paint Lick.
Both girls expect to make records
in their farm experience.

Every male who has reached the
age of 21 since June 5th, 1917, must
register on Wednesday June 5th,
next, at the Court House, Lancaster,
Ky., from 7 A. M. to 5 P. M.

Worse'n Boils, Too.
Old John had his troubles, but nobody
raised the price of ice on him when he
was laying in his winter's coal.—At
Lanta Constitution.

Yes, Indeed!
There is one part of our paper in
which almost loss of consciousness
occurs, and that is our weather fore-
cast.—Columbia Record.

Rafts in Lifeboats.
Rafts lashed to the sides of a life-
boat and which spread out when it is
adroit to give additional buoyancy form
a recently invented device for safety
at sea.

Cultivated Rubber.
British Malaya is now firmly estab-
lished as the leading country in the
production of cultivated rubber, and
the industry has added very substan-
tially to the prosperity of the Malay
peninsula during the last nine or ten
years.

The Quiet Life.
Often we rebel at what looks to us
like the narrowness and emptiness of
our lives. There is so little variety,
so little of the unexpected and the
exciting. We forget the loveliness of
a gray life—the delicacy, the subtle
thrills and shades that are only possible
when experiences come sparsely or fil-
tered through long periods of waiting.
Quiet lives are more exquisite than
crowded ones, just as quiet shadows
are more exquisite than crude sunlight.

WANTED

Fifty fat ponies, age 3 to 10
years. Phone me or write. Can
come to your farm next Tuesday or
Wednesday. Dr. Wm. D. Pryor,
Lancaster, Ky.

I take this method of kindly ask-
ing all who are indebted to Dr.
Acton, for services rendered, to
please call and settle immediately,
before I leave, for when I go away
he has directed me to turn over all
unpaid accounts to his attorney.
Respectfully,
Mrs. J. M. Acton.

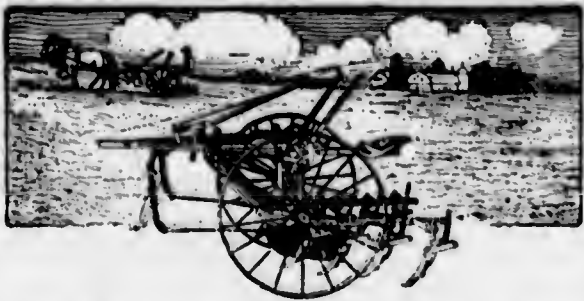

OLD FALSE TEETH WANTED
DON'T MATTER IF BROKEN.
We pay up to \$15 per set. Also
cash for Old Gold, Silver and broken
Jewelry. Check sent by return
mail. Goods held 10 days for senders
approval of our offer. Mazer's Tooth
Specialty, Dept. A., 2007 S. 5th St.,
Philadelphia, Pa.
4-25-8t-pd.

One Fleecest of the Elements.
"Your wife has probably interfered
with more of your plans than ever did
rain, fire or cold weather," says the
Howard Courant.

Turkish Women.
Turkish women never serve in Chris-
tian houses unless as occasional thur-
women or washerwomen. Greek and
Armenian women, on the other hand,
are the mainstay of the Constantinople
housekeeper; even Turks often employ
them to keep their big houses.

Wanted It Understood.
"Well, dear'am," briskly said the ap-
plicant, "there is one more detail to
settle. You are, I am told, a widow.
Now, pardon me, but is it your idea
that the proper way to keep a hired
man on the farm is to pay him wages
or to marry him?"—Kansas City Star.

Picking Pins From Throat.
The swiftness and ease with which
a doctor can remove a bone, a pin or
other object from the windpipe, esoph-
agus or even lung is often astonishing.
This is when he uses one of the tubes
that enable him to look right down
into the organ, see the foreign object
illuminated by an electric lamp and in-
sert a delicate forceps with which to
seize it and draw it out. Without the
use of an endoscope there is much dan-
ger of injuring the tissues by blind
feeling for the offending object.

The Cultivator You Hear About

THERE are a lot of cultivators on the market. Some are good—others not so good. But there is one that nearly every farmer has heard about—

International No. 4 First Aids Cultivator

Every man that has ever used an International No. 4 is always ready to say a good word for it. It is a real workhorse. It is the only cultivator that will do all the work that a farmer needs to do in the field with a minimum of labor. It is the only cultivator that will do all the work that a farmer needs to do in the field with a minimum of labor.

You can do all the work that a farmer needs to do in the field with a minimum of labor. It is the only cultivator that will do all the work that a farmer needs to do in the field with a minimum of labor.

It is the only cultivator that will do all the work that a farmer needs to do in the field with a minimum of labor. It is the only cultivator that will do all the work that a farmer needs to do in the field with a minimum of labor.

Watch Your Imprints.

A child's mind is plastic. The impressions received while young are lasting. When cement is in the process of making, it is soft and pliable; but once it is dry, it becomes so hard that a workman can hardly break it with a hammer. But, while it is soft, a child laid its hand on the material; in a few minutes the cement hardened, and the imprint made by the child's hand was still there.—Ernest M. Glenn.

Powerful Pump.

Your heart is a very busy organ. While you breathe once it beats four times. At each beat it sends four pounds of blood through your veins and arteries. The weight of the circulating blood is 20 pounds. When you run your legs and the other parts of your body need more blood, so your heart must pump faster.—Regular Set once Monthly.

The Farmer's Share

Live stock is marketed from farmer to consumer at a lower cost than almost any other farm product.

The United States Department of agriculture reported in 1916 that the farmer gets for his cattle "approximately two-thirds to three-fourths" of the final retail price paid by the consumer for the resulting beef.

Under normal conditions, the farmer's share of retail prices of various farm products is approximately as follows:

Butter	71 per cent
CATTLE	66 2/3 to 75 per cent
Eggs	65 per cent
Potatoes	55 per cent
Poultry	45 per cent
Fruits	35 per cent

The difference between farmer's price and retail price represents the necessary expenses of packing, freight and wholesale and retail distribution.

Swift & Company not only performs the manufacturing operations of preparing cattle for market in its well-equipped packing plants, but it pays the freight on meat to all parts of the United States, operates 500 branch distributing houses, and in most cases even delivers to the retail butcher. All this is done at an expense of less than 2 cents per pound, and at a profit of only about 1/4 of a cent per pound of beef.

Large volume of business and expert management, make possible this indispensable service to the live-stock raiser and to the consumer, and make possible the larger proportion of retail prices received by farmers.

Year Book of interesting and instructive facts sent on request. Address Swift & Company, Union Stock Yards, Chicago, Illinois

Swift & Company, U.S.A.

ALL TIRED OUT

Hundreds More in Lancaster in The Same Plight.

Tired at the time: Worn and worn out night and day. Back aches; head aches. Your kidneys are probably weakened. You should help them at their work.

Let one who knows tell you how. Mrs. Joe Turner, Totten Ave., Lancaster, says: "A few years ago my kidneys got out of order and I had backaches. I felt dull and languid and tired easily. My kidneys acted irregularly, too. A friend told me of Doan's Kidney Pills and I bought them at Stormes' Drug Store. They soon rid me of the backache and put my kidneys in good order."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Turner had. Foster-McLure Co., Mfrs., Buffalo, N. Y.

PAINT LICK

Mr. James N. Denny was in Richmond, Saturday.

Mr. and Mrs. R. W. Estridge was in Richmond, Monday.

Frank Ralston and James Lafford left Saturday for the training camp.

Mrs. Reid Lear, and small sons, are the guests of Mr. and Mrs. B. M. Lear.

Miss Cleome McWhorter is at home for the vacation season from Millersburg Female College.

Paint Lick went over the top with her quon in the Red Cross Drive. A number of ladies pledged their Sunday eggs to this cause.

Mr. E. C. McWhorter and E. H. Woods, D.W. White and Arthur Biddell motored to Louisville, Thursday, and brought back 2 Chevrolet cars.

Mrs. Burette Ramsey received a card from her brother, Corporal Hiram Arnold, saying he had landed "Over There", was well and happy to be in the service.

Mamie Nelson and Baretta Ramsey are now members of the Pig Club and are going to make the dogs hustle if they beat them to the prize with their Kentucky Red Berks.

NO MORE CALOMEL FOR THIS BARBER

Nashville Tonsorial Artist Says He Has Found Better Way to Get Relief Than by Taking Calomel—Takes Vin Hepatica

"If a fellow was ever knocked out by anything, I certainly was by a good old-fashioned spell of spring fever this spring," said U. L. Headeu, well-known Nashville barber, 243 Fourth avenue, north, "but thanks to Mr. G. M. Spencer, the paint contractor, 617 Commerce street, for stating in the papers how he got such wonderful quick relief by taking that good medicine, Vin Hepatica.

"I have been using calomel, which was so sickening that I could scarcely stand it. Not only did Vin Hepatica put me in fine shape again, but it was as pleasant to take. I hadn't taken more than two or three doses than my drowsy feeling was all gone and I was feeling fine. I am my old-time self again.

The fact is, Vin Hepatica is Nature's own medicine for stomach, liver and kidney troubles. It is made from eight of the greatest medicinal roots and herbs known to medical science, all combined into one medicine, known as Vin Hepatica, the Universal System Purifier and Tonic.

We strongly recommend this great Nature remedy. Buy one and get a lot of it, and try it, on our recommendation. We know it is a real medicine of the highest merit.

LEVEL GREEN.

Phone Walton Moss for a crate of Strawberries.

Miss Grace Smith was a visitor in Berea, Sunday.

Misses Ruth and Nelson Sowder were guests of Miss Tillie Green, Sunday.

Mr. and Mrs. R. C. Beatin spent Sunday with Mr. and Mrs. S. M. Robinson.

There will be a Children's Day for Foreign Missions, at Level Green, church, Sunday, June 2, at 2:30 P. M., everybody cordially invited.

Mr. John Clark and daughters Misses Parrie and Katie, and Mr. and Mrs. Bynum Davis and children visited Mr. and Mrs. Sam Davis, Sunday.

Dr. and Mrs. F. H. Smith of Paint Lick, Mr. and Mrs. John M. Smith and Mr. and Mrs. B. G. Smith, were by pleasant guests of Mr. and Mrs. W. H. Smith, Sunday.

GUNNS CHAPEL.

Mr. J. M. Anon went to Braden Monday on business.

Mr. and Mrs. Dock Simpson were in Estill a part of the past week.

Mr. and Mrs. T. S. Roop were here guests of Mr. and Mrs. John Land.

Phone Walton Moss for a crate of Strawberries.

Mr. and Mrs. James Simpson, Mr. and Mrs. Milton Estes were guests of Mr. and Mrs. J. R. Sparks, Sunday.

Mrs. Prentiss Walker and attractive daughter, of Lancaster, were guests of Mr. and Mrs. W. B. Ray, Sunday.

Mr. Coy Price and two interesting children, James R. and Hattie B., were recent guests of Mr. Robert Price, near Point Leavell.

In the Best Cross Drive last week, this precinct subscribed more than \$100, up to Wednesday. Four seen in Gunns Chapel district contributed \$50, each.

On Sunday, May 26th, a birthday dinner was set in honor of Mr. C. S. Roop, at his home at Urtersville. The guests included his four children, all his grandchildren, and a large number of friends, making the total number present reach toward a hundred. This gathering was quite a surprise to Mr. Roop, and a great pleasure to all present. Mr. and Mrs. John Land, Mrs. T. W. Bailey, and Misses Iva and Lenora Hollon, from this place attended. This was Mr. Roop's 65th birthday anniversary and it is the sincere wish of his friends that he live to see many more happy years.

LANCASTER WIDOW CRIES FOR JOY.

"I couldn't eat anything but raw eggs and sweet milk and was so weak I could hardly walk across the room. I would have been in the grave today if I hadn't taken May's Wonderful Remedy when I was ill. When I think how I have suffered with my stomach and how I feel now I cry for joy."

It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and always the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

R. E. McROBERTS, Druggist.

POINT LEAVELL.

Theo. McWhorter is visiting his grand parents, Mr. and Mrs. W. T. King.

Mr. Joe Hammonds bought a nice 175 pound hog from Henry Sanders for 19c.

Miss Dora Scott is at home for the vacation after attending school in Cincinnati.

Mr. Henry Conn and family of Richmond, spent the day Sunday with Miss Belle Smith.

Phone Walton Moss for a crate of Strawberries.

Miss Ella Mae McKinney has returned home after several months visit with the Misses Tribble.

Quite a number from here attended the Sun Brothers Circus at Lancaster, on Friday night.

Misses Myrtle, Fern and Emily J. Palmer spent the night with their cousin, Miss Nancy Johnson, at Hyattsville, recently.

Mr. and Mrs. J. W. Tatum, J. Tatum, Mrs. Emory McWhorter and Richard Luckey made a flying trip to Lexington, on Thursday.

Mrs. John Amerson entertained at dinner on last Friday in honor of her nephew, Frank Ralston, who left for Camp Taylor, on Saturday.

Mrs. V. C. Sowders entertained at dinner, Sunday, and those present were Mrs. Curtis, and family, Rev. F. N. Tunder, Mrs. Matt Terrill, Thelma Robinson, Anna Mae Green, Lucile Lackey, Jim Smith and Blain Estridge, Mr. Jack Green and little daughter.

Grippe?

Got it? Here's the remedy. It's helped millions. Has a half century record of use. First dose brings relief. Try it. Sold by all druggists.

Dr. King's NEW Discovery for Coughs & Colds

Keep Bowel Movement Regular. Dr. King's New Life Pills keep you in a healthy condition. Rid the body of poisons and waste. Improve your complexion by keeping the bowels regular. Get a bottle from your druggist to-day. Effective but mild.

Saving Paint

Don't save paint by letting your house go without it. Cheaper far to save the house than the paint.

Dutch Boy white-lead, mixed with pure linseed oil, spreads easily, covers thoroughly, and does not blister or crack, no matter how severe the assaults of sun, rain, or snow.

Our assortment of paint, oils, varnishes, etc., is of best quality throughout.

BIG AUCTION SALE

OF

2-Boyle County Farms-2

ON

SATURDAY, JUNE 8th.

AT 9:30 O'CLOCK.

172 Acres for R. G. Williams and 148 Acres for J. M. McGraw.

LOCATION---Three miles from Danville on the Hustonville Pike. This pike is new and smooth as a floor.

DESCRIPTION--The 172 acre farm is nearly level, well watered and well fenced, 30 acres in corn, 15 acres in millet, balance in grass. A two story eight room dwelling, two halls and three porches, newly painted and papered, electric lights, located 200 yards from pike with beautiful avenue. This is a **SHOW PLACE**.

DESCRIPTION--The 148 acres is just across the pike and has a new four room, metal roof, bungalow, with two porches, concrete cellar and cistern, large barn 30x60, everlasting water 85 acres in corn, 20 acres in oats sown to clover, balance in grass, beautiful frontage on pike.

Both of these farms are in a high class state of cultivation and are ready to make money on. Possession of all the land given at once.

The man who buys now will save money and make money, as lands are going to sell a great deal higher this fall. NOW is the time for the thinking man to buy, whether he buys for a home or for speculation.

Remember very few farms are now on the market, owners are holding for higher prices, but at this sale the bidders will fix the price as these farms will be sold to the "HIGH DOLLAR" with no buy-bidding.

Remember ten minutes from Danville, the best town of its size in Central Kentucky. These farms are located within a mile of two great trunk lines, the L. and N. and the Queen and Crescent.

LOCATION RIGHT; IMPROVEMENTS RIGHT; LAND FERTILE; POSSESSION AT ONCE; EVERYTHING TO SUIT ANY PURCHASER.

Each farm will be sub-divided and sold in from 20 to 100 acre tracts, or perhaps may be offered as a whole. In other words I always sell land to suit the bidders.

At the same time and place will also sell for the owners of the land a lot of fine live stock and farming implements, consisting in part of the following: two five year old shorthorn cows and calves, one two-year-old shorthorn cow and calf, two two-year old Aberdeen-Angus cows with calves, one four-year old Hereford cow and calf; one six-year old shorthorn cow and calf; one 1200 pound shorthorn cow, one black cow and one jersey cow to be fresh soon. These cows are practically pure bred and splendid individuals and heavy milkers.

One nine year old work horse, one seven-year old work mare; one good driving mare; one pony; two fine Hampshire brood sows; seven 90-pound Hampshire shoats; eight 60-pound Hampshire shoats.

One pair of four-year old work mules; one gentle driving mare; one six-year old work horse; one five-year old black mare and colt, subject to registration; four fine jersey cows, one with young calf; five head of yearling cattle: one jersey heifer; four good steers; one sow and eight pigs; two brood sows; two gilts.

FARMING IMPLEMENTS: two disc-harrows, 2 drag harrows; four turning plows; two cultivators; two good farm wagons; three buggies; one mowing machine and hay rake, one one-horse wagon; alot of plows; plow gears, wagon and buggy harness, single and double. In fact everything used by an up-to-date farmer. One cane mill and evaporator, two stands of bees; one cream separator, about 150 chickens and 150 young chicks; a lot of turkeys, geese, etc. Some household and kitchen furniture.

THE SALE WILL BE HELD RAIN OR SHINE. PLENTY OF DINNER FOR EVERYBODY.

Don't fail to attend as this will be the "BIG SALE" of the year in Boyle County and perhaps the LAST CHANCE to buy Boyle County land at public auction this year.

For further particulars inquire of Mr. J. M. McGraw or Mr. S. Spradling, at the farms, who will take pleasure in showing the farms before date of sale, or see

HOLD THE BATTLE LINE IN FRANCE

Feed the American Army—Save the
Wheat Flour

THE PATRIOTIC PLEDGE

Ky. — 1918.

I have a family of — persons living at my home. I have on hand
— pounds of wheat flour. I agree that in my home we will not use more
than six pounds of wheat products in thirty days for each person, including
flour, crackers, Victory bread, macaroni, etc., until the next harvest comes in
August. I agree to hold at my home all wheat flour which I have on hand
over a thirty days' supply for my family on the ration of six pounds per month
per person, and to dispose of such surplus as the United States Food Adminis-
tration may direct in the interest of National Safety. If my surplus flour is
given to the Government, I am to be paid what it cost me.

I make and sign this pledge as an American citizen to aid in the winning
of the war.

P. O. Address

Cut out the above pledge. Fill in the blanks. Sign your name and address
and mail to your County Food Administrator at once.

Wheat! Wheat!! Wheat!!! This is the great national necessity at the
present time. It is needed for the immense armies we are sending abroad at
the present time. It is needed for the Allied armies who are so gloriously hold-
ing the Battle Line in Western France until the Americans can get "on the
job" and drive the German Hordes back across the Rhine.

It is wheat flour that is so badly needed for bread stuffs over there. It is
wheat flour that the American Government must have and our American Pa-
triotism at home must provide it by savings in the homes. There is no other
source of supply until the next harvest. Thus duty calls us to our part in the
war.

Knowing that all loyal citizens are glad and willing to conform their house-
holds to the six pound ration until the new harvest, but knowing also that we
have some among us who are disloyal and pro-German and perhaps not averse
to seeing sacrificed the splendid brave youth of the nation who are going from
our homes to fight for our freedom, the Government is protecting our loyal
citizens against those disloyal in meeting this call for the saving of wheat
flour. There is on the Statute Books a law against hoarding under which
those who hold an unreasonable amount of flour are being prosecuted by the
Department of Justice in the Federal Courts. The penalty for convicted hoard-
ers is a fine not to exceed \$5,000, and imprisonment not to exceed two years,
or both.

The Food Administration has determined the amount of wheat that is
available from now until harvest for the American people. It has determined
that a reasonable use must not exceed six pounds per month per person and
has stated that it is unreasonable in this emergency to have on hand more
than a thirty days' supply on this ration for our householders.

Any person who has on hand more than this amount is liable to prosecu-
tion as a hoarder of flour under the law on orders from the Food Adminis-
tration. The procedure is by indictment in the Federal Court.

Recognizing, however, that many patriotic persons, following practices
formerly considered legitimate and usual, have laid in larger quantities of flour
than in this time of National Emergency is considered reasonable and right,
and that many of these persons acted in so doing from proper motives, the
Food Administration in the interest of fairness and justice, now offers to those
citizens who have thus acted in good faith, the opportunity of showing their
patriotism and insuring themselves against the notoriety and penalties that
would result from prosecution.

No person in Kentucky, therefore, who makes and files with their County
Food Administrator the statement disclosed in the Pledge at the head of this
article and holds his surplus flour for the Government, agreeing to turn it over
if it is needed, will be prosecuted by the Government for hoarding flour.

The Food Administration will not call for your surplus unless it is neces-
sary, and when it does call, will leave you your thirty days' supply, but it must
know where the flour is and it must have your promise to turn it over as a
measure of National Safety.

In some Kentucky counties, owing to shortage of supply, it has already
been found necessary to direct that excess holdings be marketed, but it is only
in cases of emergency that such action is contemplated.

When this call comes to you think of the needs of our soldiers, the brave
boys who fight our battle for freedom, for the safety of our homes from the
menace of the Huns. Don't let anyone say you are a slacker because you have
not offered your surplus to the Government in time of need. Every pound of
flour now counts in this time of trouble. Remember also that the influence of
your offer on other citizens not so patriotically inclined, may save the lives of
many brave boys from your own home town. Make your sacrifice for them
and inscribe your name in this pledge on your Country's Roll of Honor!

FRED M. SACKETT,
Federal Food Administrator for Kentucky.

May 17th, 1918.

Canada Reduces Wheat Consumption.
Home consumption of wheat in Can-
ada is now being reduced about 50 per
cent to make possible an increase in
wheat exports.

—Save Food.—
Be More Efficient Than the Enemy.

"The only way to win the war," Pro-
gressive Farmer believes, "is for us to
be more efficient than the enemy. If
the Hun soldier is efficient, ours must
be made more efficient. . . . If
the German farmer is efficient in feed-
ing and clothing the German army, the
American farmer must prove himself
more efficient."

—Save Food.—
U. S. Cornmeal Output Doubled.

A canvass of the whole country by
the Food Administration shows that
the actual milling output of cornmeal
increased from 3,000,000 barrels in Oc-
tober to nearly 6,000,000 barrels for
March. During the past 18 months,
the output of corn flour has increased
500 per cent.

—Save Food.—
No Sacrifice, Just a Change.

The program of food conservation in
the United States leads Missouri Rural-
ist to say: "We Americans have not
yet been asked for any real sacrifice.
Our meekness and wheedling means
merely a matter of changing the
method, substituting one food for
another and are nothing compared
with the rationing imposed on the En-
glishman and the voluntary rationing
of the Canadians."

Says the Idaho Farmer: "The bread
ration of the allied soldiers now fac-
ing the fearful onslaughts of German
guns and gas has been reduced. Why?
Because they haven't enough to go
around. They haven't enough wheat
to make their war bread out of. What
are we going to do about it?"

—Save Food.—
"It is the War."

In France fifty per cent of the total
energy of the people is said to go into
military effort. Hardships, hunger,
sorrow—all suffering is excused with
the explanation, "It is the war." This
is the kind of spirit needed in every
American home.

—Save Food.—
Put Every Acre to Work.

In an editorial reviewing handicaps
and hardships of the past, Michigan
Business Farming has this to say
about the future: "The time for find-
ing fault with things, which for rea-
sons perhaps more cogent than we can
realize can not be changed for the
time being at least, has passed. Now
that the planting season is near and
the farmer must soon decide upon his
acres, let us have done with fruit-
less complaining, put our hands to the
plow and do OUR part in winning the
war. . . . Never let it be said
that a soldier suffering hunger or that
a child in far-off Belgium died from
starvation because you failed in this
great hour of need to grow the mite
of food which might have nourished
them."

Just a Hint for Aunt.

Aunt Mable, visiting at our house,
borrowed a nickel from little Katie to
telephone and forgot to repay the loan.
Katie worried about the loss, for to
her it was a mighty big sum. Finally
she said to her mother, "When we are
all at the table, let's you and me begin
to talk about owing people nickels;
then maybe Auntie will remember she
owes one to me."

Not in That Way.

A foreign-born citizen and his wife
were not living together. A fire de-
stroyed their home. The insurance
company was resisting the payment of
the policy of insurance thereon.
The husband, on cross-examination,
was asked by the lawyer for the in-
surance company if he and his wife
were not separated. He replied, "Not
financially."—Everybody's Magazine.

Ancient "Gothay."

Gothay was an old name of China by
which that country was known to Eu-
ropeans during the middle ages. The
British Encyclopedia says: "Gothay is
derived from Kintai, the name which
was properly that of the kingdom es-
tablished by the Kintai conquerors
in the northern provinces of
China about A. D. 1007 and was sub-
sequently applied to the whole of
China." Kintai is still the Russian
name for China.

Marred Furniture.

When furniture has become marred
touch up the spots with iodine to bring
back the color, then rub with furniture
polish.

Well, He Knew What He Wanted.

John was busy imitating the men
who were measuring some ground in
the neighborhood of his home. He
wanted the tape measure and came to
his mother and said, "Mother, please
may I take your inches?"

Good is Cheerful Voice.

Cultivate a cheerful voice as a safe
guard against the wrong things. It is
not easy to complain or to utter dole-
ful forecasts in a light and breezy tone,
and moreover, the habit of tone af-
fects the habit of thought.

Average Values.

In estimating quantities of bulk it is
of considerable help to have mit fig-
ures handy for multiplication or di-
vision to get the required result. The
following figures are recognized aver-
age values, giving weights in pounds
for one cubic foot of the material
named. Soft coal ashes, tightly packed
43; clinkers, 40 to 45; hard or anthracite
coal, 50 to 60; soft or bituminous
coal, 47 to 52; coke, 23 to 32; iron
ore, 45; lead, 700; pitch, 75 pounds per
cubic foot.

Miceless Books.

Mice can be kept away from books
with ease if pieces of gum camphor
are laid near them on the shelves.

Versatile.

A versatile man is one who can talk
at the right time and keep still when
there is nothing to say.

First Colonial General Hospital.

It was on February 7, 1751, that the
first general hospital was chartered in
the colonies—the Pennsylvania state
hospital in Philadelphia. Joshua Cross-
by was the first president of the in-
stitution and Benjamin Franklin, who
had been prominent in making the es-
tablishment of an institution for the
care of the sick, was the first clerk. It
was in this hospital in 1783 that Thom-
as Paine gave the first clinical instruc-
tion in America.

Licorice Root in Demand.

Licorice root is found in various
parts of the province of Cape of Good
Hope. After its introduction there a
number of farmers planted it and then,
probably on account of the lack of
a market, neglected it. Later it so
spread in certain localities as to be-
come a pest difficult to eradicate. Now,
its usefulness has been recognized, and
the diggers pay two cents a pound for
the privilege of digging it.

LANCASTER CHAUTAUQUA WEEK JUNE 24 TO JUNE 28

COLONY OF BEES IS LIKE MACHINE

Beekeeper Who Knows His Business Is Thoroughly Sure of Success.

PROPER HOUSE IS IMPORTANT

Greatest Source of Loss Is Death and Weakness of Insects in Winter—Disease Discourages Many Beginners.

(From the United States Department of Agriculture.)

The productive colony of bees is like a good machine in the hands of a good mechanic. While energy is consumed simply to run the machine, a good mechanic does the right work at the right time and obtains the greatest possible reward in the machine's output. So the beekeeper who has made a study of the business and knows how properly to direct the energies of the bees is sure of winning the greatest success. Many good beekeeper in the United States receive a good living from their bees and have incomes equal to that of a prosperous farmer in other lines of agriculture.

Bees should be properly housed in good hives. Swarming should be controlled, surplus honey should be provided at the proper time, and in plain language, and adequate protection and care to prevent losses should be provided during the winter.

Of the major sources of loss of bees the greatest is the death and weakness of colonies in winter. By starvation and exhaustion of vitality the average winter loss in most localities is fully 10 per cent. It is not at all unusual for the honey crop to be reduced one half by poor wintering, yet this condition can be reduced readily to less than 1 per cent.

A second source of loss is from two infectious diseases of the brood of bees, European foulbrood and American foulbrood. Within the past few years many of the states have provided for sanitary inspection and in all but a few states these diseases are not properly controlled to permit commercial beekeeper to conduct their work with virtually full returns. In spite of such success the annual loss of colonies from disease is probably \$2,000,000, and many beginners in beekeeper are discouraged by the disease situation. This source of loss is therefore a serious one.

Collecting a Swarm of Bees.

When a colony becomes populous during a good honey flow it normally makes preparation to swarm, thus dividing itself into two colonies. While this instinct is advantageous to wild bees, it results in a reduction in the honey crop if the division occurs, as it usually does, just before or during the time when nectar is especially abundant. Rarely can swarming be entirely prevented, even with the best of care, but the proper measure of a beekeeper's skill is his success in reducing this activity. A failure to attempt this causes untold loss in honey every year, and the methods of swarm prevention and control can be understood only by careful study and experience.

The proper giving of room for surplus honey is important in this connection. It is an unusually good locality in which nectar is abundant all summer and this room must be given at just the right time. This necessitates watchful study of the nectar-producing flowers. It is quite a common practice for beekeeper to put on one "super" for the storage of surplus honey and to wait until this is entirely filled before giving more space. This results in the loss of much honey from lack of storage space, and often too much is stored in the part of the hive which should be devoted to brood rearing. The proper placing of room for surplus honey requires vigilance and study, and a failure to provide this room on time and in the proper way often may reduce the crop to one-third.

Ripening Cream.
By ripening cream the albuminous matter is rendered more tenacious, making the churning easier.
The proper ripening of cream has a good deal to do with the loss of fat in churning.

BOND ISSUE

Resolutions.

Lancaster, Ky., May 25th, 1918.

At the office of Dr. J. A. Amon, in the city of Lancaster, Kentucky, May 25, 1918, a meeting of the Board of Trustees of the Lancaster Graded School, Common District No. 24, duly called by the chairman, the following trustees were present: Dr. W. M. Elliott, J. A. Amon, J. E. Dickerson, H. V. Bastin and J. A. Beazley, and the following proceedings were had: J. A. Beazley introduced the following resolutions:

Be it resolved by the Board of Trustees of the Lancaster Graded Common School District, (white) No. 24, whereas, the present school grounds are inadequate and too small for present school purposes, and whereas, there is insufficient funds to purchase this additional land and practically no funds are available for that purpose, and whereas, in our opinion it is necessary to order an election and to submit to the voters of said district the question whether or not the trustees thereof shall issue bonds of said district in the sum of Five Thousand Dollars (\$5000.) for the purpose of purchasing a tract of land adjoining the present school land consisting of five and one quarter acres. It is now unanimously ordered that an election be held for said purpose and same is hereby ordered to submit to the voters of said district the question whether or not the trustees thereof shall issue bonds of said district in said sum of Five Thousand Dollars (\$5000.00), said bonds to be in denomination of five hundred dollars (\$500.00) each, and one of said bonds to be due on the 15th day of December, 1923, and one bond due and payable each year thereafter until all of said bonds are paid, and the same shall bear interest from date at the rate of five per cent per annum, payable annually. For the said purpose it is further ordered that due notice of said election shall be given by said trustees by written or printed posters, not less than one foot square, signed by said trustees, stating the time, date, and hour of said election, posted at not less than six public conspicuous places in the district for ten days previous to the date of the election, and by one insertion thereof in the Central Record, a newspaper published in Garrard County, in said district. The Board shall appoint two judges, a clerk and a sheriff to hold said election, who shall be first duly sworn before acting and shall be housekeepers, taxpayers and residents in said district, and one of the judges shall ask of each voter, "Are you in favor of the issue of bonds by the trustees of this Graded Common School District for the purpose of purchasing additional land and ground for school purposes for this district and adjoining the present school site?" And the clerk shall record the answer "yes" or "no" as given by the voter. It is further ordered that said election shall be held at the present school house building on Lexington Street, in the city of Lancaster in said district, on the 15th day of June 1918, between the hours of one o'clock, P. M., and six o'clock, P. M., and said trustees duly appointed E. W. Harris and George Smith, Sr., judges, and Charlie Anderson, clerk, and Tom Wherritt, sheriff, to hold said election, and they are hereby ordered and directed to hold said election at said time and place for said purpose. Whereupon, J. A. Beazley, moved the adoption of said resolution, and Dr. Elliott seconded said motion, whereupon same was unanimously adopted and passed by vote duly taken, all of said trustees voting for said resolution.

J. A. AMON, W. M. ELLIOTT, Sec'y., J. E. DICKERSON

H. V. BASTIN, J. A. BEAZLEY.

An election is hereby called at the time and place and for the purpose set forth in the foregoing resolution and notice and order thereof is hereby given.

Witness our hands as trustees of said district, this 25th day of May, 1918.

J. A. AMON, Pres., W. M. ELLIOTT, Sec'y., J. E. DICKERSON,

H. V. BASTIN, J. A. BEAZLEY.

The foregoing minutes were read, approved, and adopted by unanimous vote of the Board. It is further ordered that J. E. Dickerson and J. A. Beazley be appointed to duly advertise said election as directed in the foregoing resolution.

Wives Evidently His Hobby.

Probably the modern world's marriage record for men was created by George Witzoff, the bigamist, whose marriages have variously been estimated at from 200 to 300. It was reported that in the space of a single week, he went through marriage ceremonies with ten women.

Speller of Harmony.

"It's too bad," said Uncle Eben, "dat de big-headed man shagin' off de key is so often allowed to go on spollin' de pleasure not only of de choir, but of de whole congregation."

Truly Remarkable Record

A wonderful mathematical record was that of a certain John Watson, of San Francisco. This "juggler of numbers" became acquainted with the eight daughters of a brewer resident in Trieste. Within a year he had gone through in form of marriage with each of the eight sisters, and had succeeded in decamping with their dowries.

Celtic in Origin.

The word "Ithine" is a Celtic word, meaning "door," and the British Isles form a Celtic archipelago. Glastonbury and not Canterbury was the sacred mecca of England, and England before she was England was a Celtic country. The Moyne was the sacred river of Christian Ireland, the most political river that flowed into the sea.

Strange Contradiction.

"Do you dat de-est see de bright side o' life," said Uncle Eben, "is generally de same feller dat's afraid of his shadow."

Fighting for Truth.

Fighting for truth in its last recesses of sincerity, for human dignity systematically outraged, for human rights mercilessly trodden under foot—champions of such interests, men first of all decency, as from a summit suddenly revealed, the possible grandeur of bloodshed suffered or inflicted.—Thomas DeQuincey.

Just "Substitution."

Here is a "substitution" story that will take a lot of bending. It concerns a farmer who was given a shopwalker as a farm laborer. The first morning he said to his new hand: "Take a horse and go to the station for a load of potatoes." When he arrived the station agent said: "All right, but how are you going to take them without a cart?" "Dear me!" said the man, "I've forgotten the cart!"—Argonaut.

Two Important Chains.

As the golden chain which a household together. Kindness chain which binds households together.

Read Signs Wrong.

Bride (reproachfully)—Why didn't you tell me that you were in debt? You seemed so unhappy that I thought you had money.—Omaha News.

Bruises and Sprains

Have Sloan's Liniment handy for bruises and sprains and all pains and aches. Quick relief follows its prompt application. No need to rub. For rheumatic aches, neuralgia, stiff muscles, lame back, lumbago, gout, strains, and sprains, it gives quick relief. Generous sized bottles.

KILLS PAIN

PLANT RIGHT VETCH SEED FOR BIG CROP

How to Distinguish Varieties and Common Adulterants.

Success Rests Fundamentally on Use of Proper Seed—One Thrives in Northern States and Other Where Climate is Mild.

(Prepared by the United States Department of Agriculture.)

Success in the growing of vetches rests fundamentally on the use of proper seed.

Common vetch can be successfully grown only where the winters are mild, while hairy vetch can withstand the winters even in the Northern states and will not grow successfully when sown in the spring in regions where the summers are very hot. While actual misbranding is infre-

Good Stand of Hairy Vetch in Rye—Rye Furnishes Support for Trailing Vetch.

quent, adulteration by the use of large quantities of seed of other vetches and similar plants has become a common practice. Seed of common vetch average considerably larger than those of hairy vetch. They are slightly flattened, which prevents them from rolling readily. The surface is more or less distinctly mottled, the color of the seed ranging from light brown to green. In old seed the general color is dark.

Seeds of hairy vetch are small and nearly spherical, the usual color ranging from gray to leaded black. New seed may be somewhat brown or green. A conclusive distinction between the two kinds is seen in the seed scars with the aid of a magnifier. The scars of common vetch are narrowly wedge-shaped and have a slight ridge, while the scar in the hairy vetch is broad and oval in shape and is often split along the center. When one is familiar with the appearance of vetch seed and can recognize it by means of the scar as seen under a magnifier, the detection of other seeds used in adulteration is not difficult.

FERTILIZERS FOR GOOD CROP

Wastes Obtained in Utilization of All Plant Products May Be Made Use Of.

(Prepared by the United States Department of Agriculture.)

Since fertilizers are used as food for plants it will follow that plants, and particularly certain parts of plants, may serve as fertilizers for a new crop. This fact has long been recognized, and the wastes obtained in the utilization of all plant products may therefore be disposed of for fertilizer use. At one time a plant waste known as cottonseed meal, obtained in the manufacture of cottonseed oil, constituted the largest single source of nitrogenous material used in fertilizers, and the quantity still used for this purpose is in excess of 300,000 tons annually. Plant wastes of this kind, together with certain animal wastes, as dried blood, are now being used, however, more and more as feed for animals; but even in the utilization of organic wastes fertilizers will no doubt still always consume the greater number of products, for all may be used for fertilizer manufacture, but all are not suited as food for animals. A case of this kind is seen in the recovery of potash as a by-product in the manufacture of nicotine from tobacco waste. In this there is also furnished another illustration of the use as a fertilizer of a waste product recovered in the utilization of a waste.

Summing up, it may be stated that industrial wastes furnished about 40 per cent of the potash, 8 per cent of the phosphoric acid, and 85 per cent of the nitrogen used in this country in 1916.

The potash was obtained from such wastes as tobacco stems, cottonseed hulls, hardwood ashes, washings, blast-furnace dust, cement dust, and sugar residues; the phosphoric acid was furnished by such materials as bones, shells, fish scrap, and baste slag, and the nitrogen was obtained from wastes in the manufacture of castor, linseed, and fish oils; from animal wastes, as blood, hair, horns, hoofs, and hides, from feather and wool wastes, and from eggs, and from

HARRODSBURG, KY.

ANNOUNCES SEASON'S OPENING

SUPPER AND BALL.

TUESDAY EVENING, JUNE 4, '18.

HOURNE.

Miss Lida Mae Murphy is on the sick list.

Mr. S. H. Speake sold to Mr. Her. Halcomb some corn at \$9 per bbl.

Mr. J. P. Hamm attended the funeral services of his sister, at Buckeye.

The farmers of this vicinity have rains and have put out a lot of their tobacco.

Mr. Johnson Speake sold to Mr. V. A. Lear, of Lancaster, 9 head of cattle at 8 cents per pound.

Mrs. Lydia Murphy of Lexington, is at the bedside of her sister, Mrs. William Duncan, who is seriously ill.

We have proven the case once of Chi-Namel variety, and we will continue to do so by actual test, just as we have done before. We are convinced, before we ever start to sell, that it must show its best results, at the utmost value, and that for our money.

We can quickly teach you to paint your floors and refresh your life, and at the same time, permanently, and cheaply. Chi-Namel.

Chi-Namel Colors Varnishes and Enamels—For Floors, Walls, Ceilings, and more.

Chi-Namel Gold and Aluminum—For Radiators, Picture Frames, and more.
